A dad-of-three has pledged to buy his grandmother a new stairlift after betting £1.40 on a spin in an online game and scooping £5.4m.

Michael Clark and his fiancée Sherelle

Pooley said they are "on cloud nine" after winning the biggest pay-out in Betfred's 56-year history.

Mr Clark, 32, said he is planning to buy his grandmother a stairlift so she can stay in her home, and will be buying a new engagement ring for Miss Pooley, 27.

He said: "I just couldn't believe that I'd actually won so much.

"We thought it

must have been a mistake at first, and then we started hugging each other when we realised it was real. I just couldn't stop crying, and there was no way I was going to go to sleep that night having won such an enormous amount of money.

"Now we can easily

afford to get married and buy our forever home in the countryside. Six bedrooms will do very nicely indeed."

The pair, who were born and brought up in Walker, in Newcastle,

are also planning to buy two season tickets for Newcastle United and a possible honeymoon in Jamaica.

their wedding reception at St James' Park and going on honeymoon to Jamaica. Credit: Betfred

Mr Clark, who worked on minimum wage terms at a mental health unit, and Miss Pooley, who also works as a carer for her grandmother, said they had already shared

some of their good fortune when they met a rough sleeper in Newcastle city centre near the hotel they are now living in.

After getting chatting when he asked Mr Clark for a cigarette, he paid for him to spend the night in a hotel.

Mr Clark said: "I absolutely

loved my job helping people in the mental health unit where there are people of all ages, but the boss understood when I explained I would have to leave for a bit with all this going on. Sherelle's told her grandmother not to worry, she'll still look after her doing all the shopping and everything else.

"Season tickets for us both at

Newcastle United are definitely on our wish list, or maybe even a match day box for we're true Geordies and the team under Eddie Howe are doing very well at the moment.

"We've been engaged for seven years, and we'll be replacing Sherelle's engagement ring and getting something a lot more expensive than the £1,000 we spent in 2024. I might even buy myself a posh new watch. Everyone's calling me 'Micky Millions' now!

"It would be brilliant to have our wedding reception at St. James' Park. The honeymoon will probably be in the Caribbean – maybe Jamaica – and we'll be travelling first class. Sherelle has never been on a plane so we're already sorting out a passport for her."

Miss Pooley added: "I am just so happy for Michael, me and the whole family.

It's totally overwhelming. We are so lucky to have a new and better life ahead of us."

Mr Clark said he was trying to come to terms with winning so much money.

He said:

"We are determined to stay grounded and not go too crazy... although we're also determined to enjoy life to the fullest.

"I'm getting a bit of a taste for champagne

now, but I still like a pint of dog which is what us Geordies call Newcastle Brown.

"The kids think they're on an adventure and like us just can't get a grip on what has happened.

"We're just two very lucky people who were brought up on a council estate and went to comprehensive school, but have always tried to be kind to others... and now we are rich beyond our dreams."

It was one of the biggest news stories of our

time - and it's still not over. So what did Boris Johnson know about Downing Street's notorious parties? With fresh revelations from our Number 10 sources, in their own words, listen to the inside story...

For example, if the odds for a particular team to win a championship are +500, this means that a bettor would receive a payout of \$500 for every \$100 they wagered if that team goes on to win the

championship.

[aposta ao vivo sportingbet](#)

Odds of +200 mean you can win \$200 on a \$100 bet, but there's no quick way to determine the implied winning probability. If these odds appeared as fractional odds 2/1 you could quickly solve for the implied winning probability using this formula: $\text{Decimal} / (\text{Numerator} + \text{Denominator}) \times 100\%$
