British online gambling operator

Sportingbet is a British online gambling operator, owned by Entain plc. The company was listed on the 3 London Stock Exchange and was a constituent of the FTSE SmallCap Index prior to its acquisition by GVC holdings.

History [3 edit]

The company was founded by Mark Blandford in 1997.[2]

Sportingbet acquired Paradise Poker in October 2004.[3] On 7 September 3 2006 Sportingbet reported that its then chairman, Peter Dicks, was detained in New York City on a Louisiana warrant while 3 traveling in the United States on business unrelated to online gambling.[4] Louisiana is one of the few states that has 3 a specific law prohibiting gambling online. In March 2007, all Louisiana warrants involving the company were cancelled.[5]

In October 2006, Sportingbet 3 announced Paradise Poker would stop taking deposits from US customers, although most would be allowed to continue to play for 3 another month.[6] Additionally, Sportingbet sold all its US-facing sports betting and casino businesses, including Sportsbook and Sports, to a group 3 of private investors forR\$1, and an assumption ofR\$13.2 million in debts.[7]

In February 2007, Sportingbet

announced it was eliminating its Paradise 3 Poker software and migrating players to its Sportingbet Poker platform. Prior to this, the two platforms had approximately the same 3 number of players, but the Sportingbet platform had higher liquidity because that platform was part of a larger network. The 3 brand name of Paradise Poker was retained.[8]

In 2008, Netbet (Pty) Ltd, a company in South Africa, licensed the Sportingbet brand 3 for online gambling in South Africa.

In October 2012, Sportingbet

announced its board had agreed to preliminary terms for a £530 3 million takeover bid

from UK bookmaker William Hill and Isle of Man-based GVC Holdings.[9] Under the terms, Sportingbet's Australian and 3 Spanish operations were bought by William Hill.[10]

Operations [edit]

Sportingbet operates local-focused sportsbooks, virtual games and casino sites, and the 3 online poker cardroom, Paradise Poker. Overall, the company has over 2.5 million registered customers in 200 countries, who place over 3 one million bets (casino, poker, sports and virtual games) per day.

Sportingbet operates several websites. The largest of these are wholly 3 owned and operated by Sportingbet. They also use a system similar to a franchise, in which independent website operators use 3 Sportingbet's centralised software, financial services, trading, and customer service under license. These web sites receive a cut of the profits 3 their customers generate.

Sportingbet's corporate offices are located in Guernsey. They also have offices and call centres in the Republic of 3 Ireland and Costa Rica. The PLC is located in Moorgate, London.

The company sponsored Premier League, Championship and League One football 3 team Wolverhampton Wanderers from the 2009–10 season until the 2013–14 season.[11] This link-up with a football club first began in 3 January 2009, when Bulgarian football club Slavia Sofia announced a 3-year sponsoring deal. As a result, the logo of the 3 company appeared on the club's shirts for the 2008–09, 2009–10 and 2010–11 seasons of the Bulgarian A PFG. Sportingbet also 3 sponsored Steaua Bucuresti of Romania for the 2009–10 and 2010–11 season. The logo also appeared on Steaua Bucuresti II, Steaua's 3 reserve team's shirt, which now plays in Liga. Sportingbet also sponsored division 1 Victorian amateur football team Banyule FC for 3 the 2010–2011 seasons.[12]

Miles de mujeres con cáncer de mama avanzado en Inglaterra y Gales son privadas de un medicamento que reduce el riesgo de que la enfermedad se propague en más de un tercio

Enhertu ha sido implementado para pacientes con cáncer de mama HER2-bajo en Escocia y Irlanda del Norte, pero el Instituto Nacional para la Excelencia en el Cuidado de la Salud y la Bienestar (Nice) lo ha rechazado para pacientes en Inglaterra. Las mujeres en Gales también están siendo privadas del medicamento.

Evidencia convincente sugiere que el tratamiento, también conocido como trastuzumab deruxtecan, puede aumentar la cantidad de tiempo que viven los pacientes y darles más tiempo antes de que su enfermedad avance.

Ahora "datos realmente emocionantes" publicados en la conferencia mundial más grande sobre cáncer sugieren que Enhertu es aún más potente de lo que se pensaba previamente.

Los resultados del estudio Destiny-Breast06, presentados en la reunión anual de la Sociedad Americana de Oncología Clínica (Asco) en Chicago, muestran que el fármaco puede retrasar el crecimiento de los tumores en más de un año, significativamente más tiempo que la quimioterapia estándar.

En general, Enhertu redujo el riesgo de crecimiento o propagación del cáncer en pacientes con cáncer de mama HER2-bajo en un 38% en comparación con aquellos que recibieron quimioterapia. Los datos aumentarán la presión sobre los reguladores para que aprueben el medicamento para mujeres en Inglaterra y Gales.

Las organizaciones benéficas advirtieron que las vidas de las mujeres "se acortarán" con más retrasos mientras exhortaban a que Enhertu esté disponible para mujeres en Inglaterra y Gales lo más rápido posible.

Tabla de comparación de Enhertu y quimioterapia

Tratamiento	Reducción del riesgo de crecimiento o propagación del cáncer	Tiempo de control de la enfermedad
Enhertu	38%	13.2 meses
Quimioterapia	0% (línea de base)	8.1 meses

Dr Simon Vincent, director de investigación, apoyo e influencia en el Cáncer de Mama Ahora, dijo: "Este estudio prometedor sugiere que aún más personas podrían beneficiarse de Enhertu, ofreciendo a los pacientes con cáncer de mama HER2-bajo o HER2-ultrabajo secundario que ya han tenido terapia hormonal más tiempo para vivir sin que su cáncer se propague.

"Esto se suma a la evidencia existente de que este tratamiento puede aumentar la supervivencia general en más de seis meses para las personas con cáncer de mama HER2-bajo secundario que ya han tenido quimioterapia.

"Sin embargo, a pesar de estos datos clínicos emergentes que sugieren claramente los beneficios que Enhertu podría brindar a los pacientes, miles de personas con cáncer de mama HER2-bajo secundario son
