With a place firmly ensconced amongst Evolution's extensive range of Live Roulette

variants, Instant Roulette is likely to be mentioned 3 alongside titles like Lightning

Roulette and Immersive Roulette.

The name of the game is quite appropriate as the game

provides a 3 result in a matter of seconds. As a matter of fact, it has been dubbed the

fastest Live Roulette game 3 in the world and for good reason! Yet, despite the speed of

the action, it allows players the freedom to 3 play at their own pace, creating a new

kind of Live Casino game.

In our Instant Roulette review, we are going 3 to go over the

finer details of the game, to how it is played, to the major differences from other

3 Live Roulette games, to where to play it. So, if you want to know more, we invite you

to keep 3 on reading our Evolution Gaming's Instant Roulette review!

Where to play

Instant Roulette!

Evolution Gaming is one of the leading providers for 3 Live Casino

games, thus it comes as no surprise that many of the online casinos on our list offer

games 3 by Evolution and thus might already have added Instant Roulette to their games collection.

To make it easier to locate an 3 online casino that offers Instant Roulette,

we have put together the below list of operators, who offer a great choice 3 of games and a generous welcome bonus to new UK players!

How to play Instant Roulette

Playing

Instant Roulette is exactly the 3 same as playing any other kind of Live Roulette. It

involves placing a bet on one of the betting options 3 we are accustomed too, and waiting

for the ball to stop spinning and landing in one of the pockets. The 3 only major

difference is the set-up of the game and the way the action takes place.

To start with,

the studio 3 has 12 numbered individual Roulette wheels instead of a single wheel. All of these wheels are synchronized and spin almost 3 without ever stopping. The Roulette ball is dropped in each wheel one after the other in quick succession.

One of the 3 major

differences of Instant Roulette is the lack of a betting time. Instead, how long betting lasts is entirely up to each player, who has an indefinite amount of time to place his bets. Once he is satisfied with his choice he can press 'play now' from the on-screen console and get an almost instant result.

The outcome is delivered so quickly

because the system selects the next wheel whose ball is about to drop in one of the pockets as the wheel on which the bet has been placed. The multiple cameras set-up around the studio, zoom up on that wheel, bring the action close up as the ball randomly falls into one of the pockets on the wheel.

Play Instant Roulette at the best online casinos

When it comes to the rules of the game, these are the same as those of the European Roulette. As a matter of fact, the 12 wheels of Instant Roulette are shaped following the European Roulette model with the one zero and the typical betting grid bearing all the options we are already familiar with.

Its most distinguishing

feature is the possibility to play at your own pace, having all the time in the world to place your bets and participate in the game.

Another interesting element, that is

hardly ever seen in other Live Casino games, is the introduction of a 'ReBet' button, which allows players to place the exact same stake for the next round, the action taking barely a second. It is a great tool to have at hand if you are looking for fast-paced action that includes more than one round in a single minute.

Something else

that becomes noticeably right away, is the lack of a live dealer managing the game. Instead, in Instant Roulette, each player is given the freedom to manage the game as they wish to and set the pace that suits them best.

Since there is no human

intervention, all the action is mechanical from spinning the wheels to dropping the balls. There is, however, no RNG computer like in Lightning Roulette, and any mechanism is there solely as a substitute for human hands, producing naturally random results.

Instant Roulette min/max bet and RTP

Enjoy playing Instant Roulette by

Evolution

Evolution Gaming's Instant Roulette is quite affordable, offering a range of betting limits that cater to both players on a budget and high-rollers. The minimum bet is £0.20 while the maximum is £1,000, a range that is bound to attract all kinds of players. The RTP of the game in the long term is a solid 97.30%, not so different from the Return To Player percentage of other European Roulette games

Instant Roulette

design

Just like every other Evolution Gaming Live Casino game, the studio for Instant Roulette is spectacular. The decor is plush and elegant, with multiple doors spaced around a circular room, separated by emerald green cushioned walls.

There is an instant

air of privacy, a feeling that is reinforced by the lack of croupier and by the doors that firmly closed to the outside.

The entire space is taken up by the 12 Roulette

wheels which are arranged neatly in 3 rows. The wheels are your typical Roulette wheel, following the standard design most players are familiar with.

Instant Roulette – What

we think!

Play Instant 3 Roulette and other variations at UK online casinos

Instant

Roulette brings new elements to the Live Casno world, making it a 3 one-of-a-kind game that will surely attract many Live Roulette enthusiasts.

For the first time, players

can set the pace and manage 3 the game as it suits them best. Combine some incredible technological aspects and the elegant design, and Instant Roulette is 3 certainly worth a round or two.

If you want to give it a go, we invite you to check it out 3 at one of the recommended casinos on this page!
