1xBet Prediction

Here are 5 tips that I use when trying to predict whether a team will win or lose.

How well do the teams shoot and defend against 3-point and 2-point shots?

Good teams make at least 50% of their two-pointers; bad teams make 40%.

Good teams allow less than 40%; bad teams allow more than 30%.

Look at the team’s statistics. The teams that have the higher scores in the different categories will most often win. The highest scoring team usually wins about 60% of the time.

Look at who is playing well recently; if a player is on a roll then their team will most likely end up winning.
