### RTP and Betting Limits

#### RTP

Return-to-play (RTP) on National online casinos is 98%, one of the highest payout rates amongst Canadian casino sites. On average, players can earn more money back when they play games. Of course, the RTP is not a guarantee of wins, but a higher rate helps.

#### Betting Limits

Betting caps are very flexible at National Casino because of the many games. There are virtual and live dealer games that suit all budgets. Contests are open for payments of R\$0.01 per spin/round, up to thousands of dollars to buy into high roller games. Conversely, the withdrawal limits are as follows:

Minimum: 10 USD/EUR/CAD

Maximum: 4,000 USD/EUR/CAD per week/50,000 USD/EUR/CAD per month

#### App, Desktop & Mobile Experience

National Casino gives Canadians access to the site across most devices and platforms, including on PC and mobile (e.g., iPhone or Android), through a dedicated app ready to download to your preferred device.

#### Using the National Casino Website

On any screen, National looks modern and sleek. Black and grey colours provide a professional feel, making the UI smooth and functional. Another advantage is that sections are cleanly organized, making it easy to jump around sections. One area we would like to see improvement is in the games menu. There are over 4,000 options on this casino, so having categories to make browsing easier would be nice.

Despite that, there is no doubt that the overall user experience of National Casino via computer, iPhone or Android device is positive, and the entertainment endless. We especially like the intuitive search function that allows you to search software developers and keywords.

#### Using the National Casino App/Site on Mobile

As with the website, the National Casino app is top-notch. Available directly from the App Store on iOS and Play Store on Android, it is obvious the app has been built with mobile players in mind. It is modern and understands the unique usage methods of mobile users. In other words, all corners of the National are just a swipe or touch away.

All features are also available on mobile, thanks to HTML5 technology. The website is also mobile-optimized if you prefer to access it through your mobile browser; so you are free to enjoy the likes of slots, live dealers and National Casino table games wherever you are..
