Poker tool software company

PokerTracker Software, LLC is the name of a poker tool

software company that produces the PokerTracker line of poker tracking and analysis

software.[1][2] PokerTracker's software imports and parses the hand histories that

poker sites create during online play and stores the resulting statistics/information

about historical play into a local database library for self-analysis, and for in-game

opponent analysis using a real-time Head-up display.[1]

The software allows the user to

monitor each poker session's profit or loss, hands played, time played, and table

style. It calculates and graphs statistics such as hands per hour, winnings per hand,

winnings per hour, cumulative profit and loss, and individual game profit and loss

across multiple currencies.

Products [ edit ]

The logo associated with PokerTracker

3

PokerTracker Software, LLC produces poker analysis software. Examples include

PokerTracker Holdem v2, PokerTracker Omaha v2, PokerTracker 3 Hold'em (PT3) for Texas

Hold 'em, PokerTracker 3 Omaha (PTO) for Omaha Hold 'em, PokerTracker Stud for Stud

poker, and TableTracker.[3] The company previously developed the PokerAce Head-Up

Display, also known as PokerAce HUD or simply PAHUD, which provides real-time

information for live online poker play;[4] the functionality from this formerly

separate application was eventually incorporated within PokerTracker 3. Collectively,

the company's software has been described as "among the most comprehensive software

programs in the online poker industry" by PokerSoftware.[5] The company subsequently

developed PokerTracker 4 in 2012 and 2013, which is its most recent software

development.

PokerTracker 3 [ edit ]

The general info tab view of a sample database in

PokerTracker Holdem v3.00 beta 29, including user customized columns such as final

tables and highest percentile finish.

In September 2009, the company announced that as

of March 31, 2010, PokerTracker Holdem v2 would no longer be supported. The decision

was made because PokerTracker 3 had been released on May 15, 2008, nearly two years prior to the end-of-life date. The company felt that discontinuing support of v2 would avail resources which could be dedicated to improving PT3 and providing exceptional customer service.[6][7] Similarly, on December 31, 2010, PokerTracker Omaha v2 would no longer be supported, as its features have been completely integrated into the PokerTracker 3 product line.[8]

PokerTracker 3 supports online poker from the following poker networks and/or sites: 888 Poker Network, Bodog, Boss Media, Cake Network, Cereus Poker Network, Entraction Poker, Everest Poker, Full Tilt Poker, IPoker, Microgaming, Merge Gaming Network, OnGame, PartyPoker, PokerStars and Winamax.[9] PokerTracker is available natively for both Microsoft Windows and Mac OS X-based computers.[7]

PokerTracker 3 competes against several similar programs.[10] According to Total Gambler, its most notable competitors are Hold'em Manager and PokerOffice,[10] while Pokersoftware considers only Hold'em Manager to be a serious competitor.[11]

PokerTracker 4 [ edit ]

PokerTracker 4 is poker tracking software that is designed for several types of online poker: No-Limit, Limit, or Pot-Limit cash games, Sit N' Go's and Multi-Table Tournaments for both Texas Holdem and Omaha players.[12] It is compatible with almost all online poker websites' software and interfaces.[13] PokerTracker 4 began public beta testing in March 2012.[14] In August 2012, the company commercially launched a Microsoft Windows version of PokerTracker 4.[15] In January 2013 as PokerTracker version 4.05.10 was rolled out, the company began alpha testing an Apple OS X version of the software.[14][16] PokerTracker 4 was produced from scratch rather than by refining PokerTracker 3 and other earlier versions.[17]

On most online poker sites, players can have the client software create a locally stored text file that records the hand history as shown in the 'Sample Hand History' example. These hand histories summarize the details of the hand in a format that can be parsed by computer software. PokerTracker reads these files and extracts the relevant information, which it converts into a database for later review or statistical analysis.[11] The software is capable of combining hand history details of multiple accounts from different online poker services, which allows a user to aggregate his or her data.[18] Statistical summaries can be consolidated from different poker sites regardless of whether the user's screen name is the same at each site.

PokerTracker is capable of analyzing cash ring games in which players play for cash during each hand, sit and go tournaments in which players compete for set prizes after the prescribed number of competitors join the tournament, and multi-table tournaments in which players compete for tournament prizes based on the total number of entries at the scheduled start time. Statistics can be tracked by position, session, tournament, best & worst hands, and hand results. This helps the user analyze statistics based on starting hand or final hand. The software also enables the user to replay any specific hand.[19]

The software's database uses tournament summaries such as the 'Sample Tournament Summary' example and hand histories to provide a three section summary (see infobox screenshot). The top section of the general information tab provides tournament summaries of profit/loss as well as ordinal placement summary. The other sections summarize situational statistics based on the level of the blinds and the starting hand. Additional tabs in the software produce detailed information for various statistical interests.

PokerTracker's probability graphs, as well as historical statistics of the hands a user and his or her opponents have played, enable the user to analyze conditional statistical possibilities and optimal betting amounts. The situations it analyzes are conditional on the opposition's playing characteristics and the player's position relative to the dealer.[20] Graphs can be produced for a single session or for any part of one's playing history.[19] One of the biggest improvements in PokerTracker 3 over PT2 is that it is fully customizable so that all statistics and reports can be tailored to the individual user.[11][21] The Guardian claims most serious players use PokerTracker during online play to constantly calculate situational optima.[22]

PokerTracker 3 version v3.00 beta 29 Profit graph

PokerTracker 3 is also

known for its integrated heads-up display, a transparent video overlay data presentation that makes statistics and notes are readily available during play. The HUD allows an online poker player to focus his attention on the poker table he or she is playing at, rather than on the PokerTracker application. The HUD provides a vast array of realtime statistics for in-game analysis, customizable to the user's preference.[19]

In addition to the statistics available constantly during play on the poker window, detailed statistics are available in a pop-up window, accessible via a single mouse click.[23] Marbella Slim of the Daily Star used the vision of Arnold Schwarzenegger's Terminator character in an analogy with the HUD: "In some scenes, you get to see what the robot Terminator is seeing and he has all these data streams in front of his vision - it's a HUD or a head-up display." [24] Unlike other poker tracking products, PokerTracker 3 includes a HUD as part of the basic program.[11] The PT3 HUD, which automatically overlays a player's opponents' statistics next to their avatars, is essentially a built-in version of the formerly available PokerAce HUD.[21]

PokerTracker

v2 will no longer be supported after March 31, 2010.

PokerTracker 3 also offers a

monthly subscription-based service called TableTracker. TableTracker is an integrated service that automatically identifies ring tables with competition suitable to the user's playing style.[21] PokerTracker's servers constantly monitor which players are playing and what tables they are playing at on various major poker sites,[25] which allows TableTracker to find the weakest players across multiple online poker websites.[19] The user can search based on the software's built in scoring system or any other statistics of his or her choosing.[25]

Use and legality [ edit ]

PokerTracker

3 includes a HUD overlay as seen in this Pokerstars online poker session

Serious poker

pros and casual amateurs alike can benefit from the poker tracking software,[26] and poker magazines such as Card Player repeatedly remind poker players of the usefulness of tracking software.[27][28] Total Gambler says that in addition to experience and

skill the other necessity for a gambler to become a professional poker player is a good software package such as PokerTracker.[29]

Several websites portray PokerTracker as

either the world's leading or the world's most popular poker tracking software. For example, Pokersource describes it as "the most popular poker tracking and analysis software available"[2] and Party Poker describes PokerTracker as "the original and largest piece of poker tracking software".[21] PokerSoftware says "Poker Tracker has been the industry standard ... for years".[11] Total Gambler says that for more than a two-year period PokerTracker 2 was the "prominent force in online poker tracking", but at the time of its December 2008 review it speaks of this leadership position in the past tense, noting that PT3 had not yet been "fully released" at the time of its testing.[10]

Major online card rooms forbid the use of software that gives a player an "unfair advantage." This typically includes software that allows players to share their hole cards with other players during live play and software that automates decision making. Since PokerTracker software doesn't fit into either of these categories it is generally allowed on most sites, including industry leader PokerStars.[2][30] Legality aside, some players feel the use of PokerTracker takes away from the game; for example, Victoria Coren of The Guardian remarks "there is only one downside [to using PokerTracker]. Where's the bloody fun in it?"[22]

## **betano apostas ao vivo :apostar no bbb bet365**

Foi uma tarde de despedidas agri doces no Estádio Londres. Esta foi um momento emocional para David Moye, cujo último jogo betano apostas ao vivo casa responsável pelo West Ham terminou na vitória graças ao retorno emocionante e à desvalorização da Luton Town porque betano apostas ao vivo rebaixamento quase que confirmou-se por não terem conseguido construir o objetivo inicial do Albert Sambi Lokonga ”.

Certamente não haverá captura Nottingham Forest agora. Mais uma vez, Luton deu tudo de si! O lado do Rob Edwards levou cedo e sonhou com um grande escape apenas por betano apostas ao vivo falta da qualidade para alcançá-los; falou volumes que West Ham ganhou apesar estar bem abaixo dos seus melhores esforços antes das lutas igualadoras James Ward -Prowse'S (tradução livre).

No entanto, Luton que está três pontos abaixo da Floresta após uma vitória betano apostas ao vivo seus últimos 16 jogos não conseguiu reagir depois de ser atrelado. Tomas Soucek um moye estrondoso com o Scot como melhor jogador do mundo – fez 2-1 por meio dum ataque fino; George Earchy (um dos astros emergentes) acrescentou alegria ao marcar betano apostas ao

vivo primeira meta sênior no último ano!

Deve-se notar que o desempenho do West Ham durante a primeira metade foi suficiente para explicar por quê agora é hora de se separar da Moyes e trazer Julen Lopetegui. O ataque ocorreu, no meio campo um buraco cavernoso com uma defesa imóvel esperando acontecer betano apostas ao vivo acidente; tanto assim não veio como surpresa quando Luton seguiu adiante após seis minutos sob domínio ”.

Os visitantes assumiram o comando desde a partida. Eles jogaram através do West Ham, cuja única mudança de betano apostas ao vivo derrota por 5-0 para Chelsea viu Ward-Prowse substituir Edson Álvarez no meio campo e aumentou os perigos quando Ross Barkley teve tempo suficiente pra encontrar Elijah Adebayo O Cão Ocidental estava muito aberto; embora as balas da equipe tenham sido bloqueadas pelo tiro betano apostas ao vivo Adejaga (a pontaria foi cortada), Alfie Doughty conseguiu recuperar posse à esquerda com uma cabeça erguida na mão direita que Sidella entregando seu braço cruzado ao lado esquerdo!

Onde estava a marcação? Ou pressão no cruzador A tentativa de fechar Barkley, alguém melhor não perguntar. West Ham era plano além da crença e demoraram para responder ao seu 71o objetivo na campanha: o que eles fizeram antes do intervalo foram tiros rebeldes feitos por Mohammed Kudus ou Jarrod Bowen; Moyees marchando direto pelo túnel terá esperado os boos (boas) recebidos com um assobio betano apostas ao vivo meio tempo!

Luton teve que se preparar para uma melhoria do West Ham no início da segunda metade. Seu fluxo foi interrompido quando Barkley pegou um golpe, obrigando-o a abrir caminho com Jordan Clark e muito estava na capacidade de Tahith Chong betano apostas ao vivo aliviar pressão ao dirigir corridas pelo meio campo ndia:

Albert Sambi Lokonga lidera Luton betano apostas ao vivo uma liderança inicial.

{img}: Tony Obrien/Reuters

Por mais pobres que fossem, sempre parecia não ter de elevar demasiado o nível para quebrar a resistência do Luton.

Assim, provou quando Bowen liderou um contra-ataque à direita e jogou uma cruz na caixa de seis jardas no 54o minuto. Thomas Kaminski salvou com os pés mas a bola bateu Reece Burke (a bala) para Ward Prowse que desenhou o nível do West Ham betano apostas ao vivo baixa tentativa venenosa!

após a promoção da newsletter;

A linguagem corporal de Luton estava dizendo. Os ombros estavam caídos e não demorou muito para que West Ham estivesse na frente Michail Antonio, Bowen and Emerson Palmieri tinham perdido todas as oportunidades convidativas antes da liberação cair sobre Soucek um voleio enfaticamente ferido depois Kaminski a 20 jardas do chão!

O jogo estava indo apenas betano apostas ao vivo uma direção. West Ham continuou a derramar para frente e deveria ter terminado os pontos quando Bowen encontrou Kudus no final de um drible sinuoso, só que o ganês dirigia seu tiro largo ”.

A corrida de Luton foi executada. West Ham atacou novamente através do Kudus, ele bateu betano apostas ao vivo Doughty e se contorceu até a linha secundária para produzir um corte na reta final da partida: Earthy que acabara substitui Antonio estava esperando o fim dos jogos; O jovem não jogou desde betano apostas ao vivo estreia contra Fulham no mês passado por uma lesão horrível à cabeça – terá lembranças mais querida dessa participação especial!
