The sure bets calculator is relatively straightforward with a straightforward interface. Calculating
stakes can be done in different ways. You can use it for both 2-way and 3-way bets. This is
possible when you have more than two possible outcomes, such as a draw, win, or a loss.

[betfair ch](#)

To calculate a surebet, you first need to find the implied probability of each outcome, which can be found by taking the reciprocal of the odds. Then, add the implied probabilities of both outcomes. If the sum is less than one, you have a surebet opportunity.
