21+3 was first introduced in Las Vegas in 2001 and has grown to become one of the world's most popular 1 side bets in the past 20 years.

If you've ever wondered how to

play or what to look for in a 1 good 21+3 game, we've got you covered.

What Is The 21+3

Side Bet?

The dealer will deal you your first two cards 1 and then turn over their upcard.

If your first two cards and the dealer's top card make a straight, a flush, 1 or a three of a kind, you've won!

One of the reasons for its popularity is that it's so easy to 1 play.

The bet is placed in a small circle off to the side of the main wager, which is why it's 1 called a side bet.

Either online or in a land-based casino, you

should be able to find the bet for as 1 low as R\$1, although in some places like Las Vegas, you may only see it for R\$5 and up.

21+3 Payouts

In the original 1 game – now owned

by Galaxy Gaming and found on land-based blackjack tables worldwide – a straight, flush, or three 1 of a kind was paid a simple 9 to 1.

But as online casinos flourished

and other companies saw the potential, 1 the pay tables evolved.

Some games now pay a

progressive jackpot on things like three aces suited, or perhaps 270 to 1 1 for a three of a kind suited.

The critical thing to remember is that they all play basically the

same. 1 Your first two cards and the dealer's top card need to combine to make a winning hand.

Several of the online 1 providers offer different payouts depending on the hand dealt.

The most common of these is this payout table from IGT, which 1 has a 4.14 percent house edge with a six-deck shoe.

Suited Three of a Kind 100 to 1 Straight Flush 35 1 to 1

Three of a Kind 33 to 1 Straight 10 to 1 Flush 5 to 1

Or the very similar 1 payout from

Evolution Gaming which has a 3.62 percent house edge with a six-deck shoe.

Suited Three

of a Kind 100 1 to 1 Straight Flush 40 to 1 Three of a Kind 30 to 1 Straight 10 to 1
Flush 5 1 to 1

The very popular top three side bet often accompanies the 21+3 side bet

since they are both owned by 1 Galaxy and marketed together to casinos.

It requires that

you bet both the 21+3 bet and the top three bet. Then 1 if your two cards and the
dealer's up card are a three of a kind, you're paid 90 to 1.

A 1 straight flush gets you

a 180 to 1, and three of a kind suited gets you 270 to 1. You 1 also get your 9 to 1
payout on your regular 21+3 bet.

The house advantage on just the top three bet 1 is
approximately 9 percent.

The More Decks, The Merrier

The number of decks in play can

influence the house advantage by a 1 few tenths of a point on your blackjack hand.

But

the house advantage on your 21+3 bet can change by several 1 whole percentage points
depending on the number of decks in play.

The original 21+3 offered up by Shufflemaster

at casinos across 1 Europe, America and Asia is a prime example.

Here's the paytable from

1-8 decks:

8 decks 2.74 percent 6 decks 3.24 percent 1 4 decks 4.24 percent 2 decks 7.26
percent 1 deck 13.3 percent

The casino's advantage is more than twice as much 1 if you

play the 21+3 side bet on the double-deck game vs. an eight-deck shoe.

Even on the IGT

and Evolution 1 payout tables discussed above, the difference between a six-deck shoe and
an eight-deck shoe is almost a whole percentage point.

So 1 this game is best played with

every payout paying 9 to 1 and on an eight-deck shoe.

Failing that, look for 1 as many

decks as possible, with one of these pay tables preferably.

Can 21+3 Be Beaten?

While a

lower house edge is 1 always a better bet, can the game be beaten?

Eliot Jacobson, a

table games hacker of sorts, showed that a simple 1 count of suits was enough to beat the
game, albeit with a very low expected return and a high degree 1 of difficulty.

But as

many casinos went to progressive pay tables with three ace of spades or something

similar, many individuals 1 and teams realized they could look for progressive payouts
that were large enough to give the player the advantage.

In these 1 very limited cases,

the mathematical pendulum had swung to favor the player as the size of the jackpot grew
to 1 offset the slight house advantage.

So it never hurts to keep an eye out for large

progressive meters when scouting for 1 a 21+3 table.

Conversely, small jackpots on these progressive games may mean that you are playing at a much worse house 1 advantage than you would be just playing on a conventional game, so beware.

21+3 Is Here To Stay

21+3

is a simple, 1 fun side bet, which, if you're careful, doesn't have to have a huge house advantage.

It can add a lot of 1 excitement for just aR\$1 orR\$5 bet, and it gets the whole table pulling together in a way that blackjack doesn't 1 always.

That's the reason

it's been around for two decades and will probably be around for at least two more.

como funciona o mr jack bet :bullsbet no deposit bonus codes

To increase your chances of winning, choose slots with higher Return to Player (RTP) percentages, play games with low volatility if you prefer more frequent wins, and make use of casino bonuses and promotions to extend your playtime.

Filipinos heridos y barcos dañados en colisión en el Mar de China Meridional

Manila ha acusado a China de haber provocado lesiones a personal filipino y daños en barcos filipinos durante una colisión en el Mar de China Meridional este mes, mientras las tensiones continúan en relación a las disputas territoriales en la zona rica en recursos y de importancia estratégica.

Las Filipinas y China se han culpado mutuamente por el choque del lunes cerca del arrecife Segunda Tomas en las islas Spratly en disputa, con un comunicado del Departamento de Asuntos Exteriores filipino del miércoles que proporciona la primera confirmación oficial de ambas partes de que se produjeron lesiones y daños. Esto sigue a múltiples informes de lesiones a marineros filipinos llevados en los medios locales y la Associated Press, que cita fuentes, así como de funcionarios estadounidenses.

El Departamento de Asuntos Exteriores filipino "condena las acciones ilegales y agresivas de las autoridades chinas que resultaron en lesiones personales y daños a los barcos", dice el comunicado, sin especificar el número de marineros heridos ni proporcionar detalles de sus

lesiones.

Al menos ocho filipinos resultaron heridos en el incidente, incluido un marinero que perdió un pulgar, informó el martes la AP, citando a un funcionario que habló bajo condición de anonimato. ha intentado obtener comentarios del Departamento de Asuntos Exteriores, las Fuerzas Armadas de Filipinas y la Guardia Costera de Filipinas.

El tabloide estatal chino Global Times publicó {img}s del incidente en línea el miércoles, que muestran una lancha rígida filipina atrapada entre un gran buque de la Guardia Costera china y al menos tres otros buques chinos.

Afirmaciones contradictorias sobre el incidente

Cuando se le preguntó sobre el incidente en una conferencia de prensa el miércoles, el portavoz del Ministerio de Relaciones Exteriores chino Lin Jian dijo que "las medidas de aplicación de la ley tomadas por la Guardia Costera china en el lugar fueron profesionales y conteniendo, dirigidas a detener la pesca ilegal de los barcos filipinos, y no se tomaron medidas directas contra el personal filipino".

El incidente del lunes es el último de una serie de confrontaciones entre barcos chinos y filipinos que han aumentado la posibilidad de que el Mar de China Meridional se convierta en un punto de inflamación para un conflicto global. Viene solo semanas después de que el presidente filipino Ferdinand "Bongbong" Marcos Jr. advirtiera que la muerte de cualquier ciudadano filipino en el aguaway a manos de otro país sería "muy cerca" de un acto de guerra.

Marcos ha buscado acercamientos más estrechos con EE. UU., que ha subrayado repetidamente su "compromiso"
