What live stakes are you playing?

5BB/100 is not a crusher at 50NL, solid win rate, but

definitely not a crusher. At higher online stakes sure, but 50NL you can definitely beat for higher win rates, the thing is most people who can, move up.

The conventional

wisdom I've always heard from pros and coaches is in most public games up to 5/10 sometimes higher a win rate of 10BB/hr is pretty achievable for a strong player. Which is like 30BB/100.

The confusion I'm having about your confusion is you claiming to not

see many fish, because that's the answer. Your average room's 2/5 players are

exponentially worse than basically any sites 50NL population. Compared to your 50NL experience, you're not seeing wayyyyyy fewer 3-bets, check raises, bluffs, etc? A very significant portion of the LLS population is playing very simple strategies with little

to no basis in good theory. It changes a little bit at 5/10 and higher, but also

remember the best live cash players are invited and creating good games where these

astronomical win rates are still possible at much higher stakes. Plenty people in the

world makingR\$250K+ a year and have no problem losingR\$10K-\$25K playing a few times a year.

The reasons players are way worse in live games:

- Online is much faster, the

losing players lose faster and then eventually quit faster.

- Live is slow enough they

can ignore the results. Most people are pretty bad at budgetting. You go to a live 1/2

table and the vast majority will claim "I'm a break even to small winner." In reality

90% of them aren't winning at all. But especially if you play once a week or less, it's easy to not notice how much you're actually losing.

- People who are prone to the

"online is rigged" thing tend to be worse players and prefer to play live.

- People who

play online are more likely to be motivated by actually winning long term whereas live

players have a wider range of draws to the game -- they like socializing at the table,

they feel like live poker is cool whereas online poker is for nerds, they stumbled in

drunk from the pits or the club, they're on vacation or a work trip, etc.

-
Recreational players want to play for money that at some level feels significant when they win, and for most it seems like 1/2 2/5 does the trick for that. But online if you're a dedicated grinder you can make serious money at those stakes, so the recs do not stand a chance. They would have to play 10NL probably to even be sort of competitive and to them that feels like play money.

To avoid confusion, time on schedules and public notices are typically formatted in the 24-hour system, so the times 19:45 and 07:45 are understood to be 12 hours apart from each other. Spoken Chinese predominantly uses the 12-hour system and follows the same concept as A.M. (N SH; shngw) and P.M. (N SH; xiw).

Investimentos no setor siderúrgico brasileiro alcançam RR\$ 100 bilhões, gerando emprego e renda

Medidas para melhorar a competitividade e promover a descarbonização

O vice-presidente brasileiro, Geraldo Alckmin, anunciou investimentos no setor siderúrgico nacional no valor de RR\$ 100 bilhões, com o objetivo de melhorar a competitividade, promover a descarbonização, gerar emprego e renda. De acordo com Alckmin, esses investimentos contribuirão para a redução da ociosidade no setor siderúrgico e fortalecerão a indústria nacional.

Medida	Objetivo
Cotas de importação	Inéditas na política industrial brasileira
Tarifas antidumping	Proteção contra concorrência desleal
Sobretaxas para produtos abaixo do preço de custo	Impedir a comercialização predatória

Apoio ao setor siderúrgico e à indústria automotiva

Alckmin ressaltou que a política de apoio ao setor siderúrgico ajudará a diminuir a ociosidade no setor e permitirá que o aço brasileiro seja utilizado pela indústria automotiva. O presidente do Conselho de Administração do Instituto Aço Brasil, Jefferson de Paula, destacou que o setor investiu R\$ 162 bilhões e emprega 2,9 milhões de pessoas. No entanto, as siderúrgicas nacionais operam com cerca de metade da capacidade instalada, tendo produzido 26,6 milhões de toneladas, diante de um potencial de produção de 51 milhões.

- Investimentos no setor siderúrgico: R\$ 162 bilhões
 - Setor emprega: 2,9 milhões de pessoas
 - Siderúrgicas nacionais operam com: 50% da capacidade instalada
