Como presidente, los intentos generalizados de Donald Trump de anular las regulaciones ambientales federales a gran escala se vieron obstaculizados con frecuencia - por los tribunales, por una falta de experiencia, incluso por la resistencia interna de los empleados gubernamentales. Pero si vuelve a ganar la Casa Blanca en noviembre, a Trump le resultaría mucho más fácil desmantelar las reglas ambientales y climáticas, ayudado por jueces más simpatizantes y aliados conservadores que ya están trazando formas de doblegar las agencias federales a la voluntad del presidente.

"Va a ser más fácil", dijo Myron Ebell, quien dirigió la transición en la Agencia de Protección Ambiental después de que Trump ganara en 2024. "Van a tener mejores personas, personas más comprometidas, personas más experimentadas. Podrán moverse más rápido y con más éxito, en mi opinión".

En la campaña, Trump ha prometido derogar las regulaciones federales diseñadas para reducir la contaminación de gases de efecto invernadero que está calentando rápidamente el planeta. Muchos de sus aliados quieren ir más lejos. Están elaborando planes para recortar presupuestos, despedir a funcionarios de carrera, incrustar leales en oficinas clave y reducir los poderes del gobierno para abordar el cambio climático, regular las industrias y restringir los productos químicos peligrosos.
