Say a single-number bet has a 35:1 payout, and you betR\$1. If you win, you'll get your money back plusR\$35. Another example: If you win aR\$100 bet (for a 35:1 payout), you get a total of \$3,600 (\$3,500 profit plus theR\$100 you initially bet).

### Focus on the Game

The main game is played with a wheel and colored pockets with alternating black and red. The total number of pockets in European Roulette is 37 (numbered 1 to 36) and a green pocket marked "0". The game is very similar to a real-world casino table. The difference is that it is offered in the comfort of your home. This table game can be played on a personal computer or mobile phone. The goal is simplified to just choosing the number on which the ball will settle.

### Graphics and Sound

There isn't exactly much you can do graphically with a roulette table, but we've definitely tried our best! The table is crisp and clear, with delightful green felt. Ambient music is also played in the background – not too obtrusive, but enough to make you feel like you're in a land-based casino. NetEnt Games tend to go the extra mile for your enjoyment after all!

### Betting Rules

When it comes to placing bets, Digital European Roulette is incredibly easy to get to grips with. There's a large payout table on the side of the wheel where you can see the different bet options (see below). Bets can range widely, but it will depend on the bet type you place as to what your odds are, and how much you can win. Changing your bets is super easy – just use the buttons at the base of the racetrack/paytable and then click on the number you wish to place the bet on. As with live roulette tables, you'll be given a specific time when you can place the bets, after which, all bets will be suspended while the wheel spins and the ball bounces along.

### Gameplay

Digital European Roulette is easy to play – all you need to do is select your bet, place it and wait for the wheel to be spun. What's really great is you can access the game through your computer or mobile phone, and you'll be on your way to winning big. The themes and features of the game include Autoplay, Dynamic Billboard, Favorite Bets, Hot and Cold numbers, Racetrack, and a Special bets

panel. This game was designed for both the experienced and beginner players of European Roulette. The simulation windows are designed with state-of-the-art technology with no lags between placing a bet and winning.

### Betting Rules

There are 5 types of inside and outside bets that can be made on European Roulette. Most of the bets offer different chances at winning and different payouts, and this is what attracts players to European Roulette. Outside Bets are recommended for inexperienced players because they are easier to understand, there is less risk and players have a better chance of winning. The disadvantage of Outside Bets is that the payouts are smaller. For more experienced players, familiar with risks that come with the game, Inside Bets are recommended.

### Call

### Bets

There is an additional option of betting that represents the wheel. Call Bets are where the dealer or croupier is allowed to place a bet upon the player's request. There are 3 major types of Call Bets; the Voisin Du Zero (the bet is placed on numbers which are neighbors of zero); the Tiers du Cylindre (the bet is placed on the numbers which are the opposite of the numbers chosen during a Voisins du Zero bet); and the Orphelin, which is a bet placed on the remaining 8 numbers on the wheel.

### Conclusion

In a

nutshell, the game is designed for both novice and veteran online Roulette players. After all, the experience is without a glitch while playing mobile casinos and desktop casinos. Feel like placing a bet but also want to spend time with family? The answer to this dilemma is our digital version of European Roulette. You get the chance to earn extra cash while you relax at home or even at your favorite place. The digital version of European Roulette gives you the opportunity to have a casino experience without having to leave your seat!
