Online Poker for Mac

The best Mac poker sites now are ones with dedicated and maybe even downloadable software for Mac users. So we've carefully reviewed the top online poker sites for Mac and created a comprehensive list of the best here. To access the highest sign-up bonuses, download the poker software to your Mac. Then just create a new account via our links below!

ABOUT MAC POKER SITES

It used to be genuinely difficult to

find an online poker site for Mac aside from no download poker options. But now all the top online poker sites - 888poker, PokerStars, partypoker offer a Mac online poker

client to download. Including Mac-compatible tracking software and free Mac poker apps for iPhone or iPad. Below are some of the most frequently asked questions we get about playing online poker on a Mac or a Mac mobile device like the iPhone/iPad.

Difference

Between Mac Poker for Download and Mac Poker Instant Play

There are three basic forms

online poker software comes in - a full-feature, downloadable software client you download to your desktop or laptop computer, a mobile poker app you can download to your smartphone or tablet and "instant play" or "no download poker."

The first is,

obviously, the most feature-packed and stable with all kinds of customization options. It needs the power of a full computer to run at its peak capacity although it takes up very little of your available computer space. This is what most people who play online poker on their home computer (desktop or laptop) use to play online poker.

The

second-most popular option these days is a mobile poker app, which you can download to your smartphone or tablet. For Mac users, that means an iPhone or iPad.

These are also

very good software products. All of the major poker sites now have top-flight iPhone poker apps that offer virtually all of the features of the desktop client but with simplified tables, betting functions, lobbies etc.

You can still access the full range

of games available to all players but things like multi-tabling and customization are slightly limited. Still, for the average player, you can hardly tell the difference.

There are new variations like Fast-Fold Poker (you're immediately moved to a new table with a new hand when you fold). And Jackpot Spin & Gos where prize pools are randomly multiplied before the tournament starts. This makes mobile poker better and slicker than ever before. Case in point are the SNAP games on the updated 888 mobile software.

The third, and least popular form of playing online poker, is

'in-browser' or 'no-download.' This simply means you play the games via an Internet browser (eg. Explorer or Firefox) without downloading any of the software.

This is fine

(and for people who only wish to play play-money-poker usually more than adequate) but for playing real-money poker online there's no question downloading either the full Mac poker software or Mac poker app is better for both quality of play and security.

the Best iPhone Poker Sites Right Here!

Playing Online Poker on Linux

Getting an online

poker client running on a Mac is one thing but playing online poker on a Linux-based machine can be considerably more complicated.

Although open-source operating system

Linux and popular distributions Ubuntu and Mint Linux have been gaining more and more momentum over the years they haven't exactly lit the poker world on fire.

There are

hardly any online poker clients that are designed to run natively in Linux and you'll most likely be forced to either run some sort of emulator or play on in-browser sites.

That's not say there aren't some great sites for Linux, as in-browser and instant-play software has improved dramatically over the years, but it will be significantly more challenging than playing poker on Windows or even OSX.

Online Poker

for Mac FAQ Do I Need Windows-Compatible Software to Play Online Poker for Mac? No. In the past, when poker sites did not have dedicated Mac poker software, anyone with a Mac needed a Windows emulator to play online on their Mac. Thankfully, those days are gone. Now most major poker sites offer OSX-compatible software for download and those that don't typically offer a Flash-based, no-download version you can play online.

Will New

Online Poker Software Run on an Older MacBook/iBook/iMac? Most likely yes. Unlike modern computer games, poker software does not require a lot of resources and the minimum requirements are usually low. There are some exceptions, such as the graphically-intense PKR Poker.

Can I Play on PokerStars on a Mac? Yes, absolutely. Not

only are there multiple ways to play online poker at PokerStars on a Mac, as the industry's benchmark for poker software their Mac client is one of the best as is their mobile poker app. You can download the full Mac software (and access our R\$600 sign-up bonus) right from our PokerStars review page . Once you've created your account you can download the iPhone/iPad app from inside the software or from the App Store. Live in New Jersey? Download PokerStars NJ for your Mac and get R\$30 free plus an up to R\$600 bonus!

Will I have to dual-boot Windows to play online poker? Probably not but that is an option if there's a Windows-only poker client that you really want to play. You can dual-boot any Macintosh computer with OSX Leopard 10.5.

Is Mac Online Poker Software

Worse than PC Online Poker? Nope. Most of the time the Mac online poker client is identical to the original Windows version. There will be a few minor interface changes.

What is "In Browser" or "instant Play" Online Poker for Mac? As we mentioned above, this means you can play right away on your Mac in your web browser (such as Firefox, Chrome, Safari or Internet Explorer) without having to download anything. The benefit is that you can start playing right away. The downside is that browser-based sites are usually missing a number of the features that full clients offer (multi-tabling is generally quite difficult).

Can My iPhone Play the Full OSX-Version

of the Poker Software? No, but more and more poker sites have now released separate (and very good) iPhone poker apps. See our toplist of the best iPhone Poker Apps for more.

Will I Only Play Against Other Mac Users If I Play Online Poker on a Mac? No. Not whatever which type of software you use you have full access to the entire poker site's player base and all of its game and stake options.

Does Mac Online Poker Software Cost

Anything? Definitely not. Every online poker site offers their software free of charge. It's your choice as to whether you want to deposit money and play real-money poker or just stick to the play-money games.

How Do I Know I'm Downloading the Mac Version of an

Online Poker Site? It should click over automatically when you hit download but just keep your eye open for a .dmg file. If you're downloading an .exe file, you're getting the Windows version.

What's the Best Way to Start Playing Online Poker on a Mac? Just

take a look at the provided list of top Mac poker sites above. We've carefully reviewed every site above based on the software, promotions and soft competition available to play against. The list is the very best online poker sites available to Mac users. You might also want to consider starting with a great iPhone (or Ipad) poker app to try out the site and see if you like it.

Can I even play online poker while running Linux?

Getting an online poker client running on a Mac is one thing but playing online poker on a Linux-based machine can be considerably more complicated. Although open-source operating system Linux and popular distributions Ubuntu and Mint Linux have been gaining more and more momentum over the years they haven't exactly lit the poker world on fire. There are hardly any online poker clients that are designed to run natively in Linux and you'll most likely be forced to either run some sort of emulator or play on in-browser sites. That's not say there aren't some great sites for Linux, as in-browser and instant-play software has improved dramatically over the years, but it will be significantly more challenging than playing poker on Windows or even OSX. Below is a brief guide to playing online poker on Linux.

Can I even play online poker while

running Linux? You can but it's going to be more difficult than on Windows or Apple operating systems. There are no online poker clients that will function natively in Linux. Instead Linux users have to settle for poker sites that offer in-browser or instant-play versions.

Is there any way to get full online poker desktop clients

running in Linux? The only option is running Windows (or Mac) emulators such as VMware and Win4Lin. There is also a popular free software application called Wine that offers compatibility with a number of Windows programs including PokerStars. Technically Wine is a compatibility layer, which isn't as resource-intensive as a full-on emulator.

Do

browser-based sites run OK on Linux? Yes. Because the site runs entirely in the browser, the playing experience should be virtually identical to what you'd get using a browser on Windows or OSX.

What are the best online poker sites for Linux? There are a

few but primarily look for poker sites that have good in-browser software. PartyPoker and 888poker are a couple good examples of online poker sites that have spent a number of years developing their instant-play software. Check any of the sites listed above that offer in-browser play.

Francis Bacon: a complex and enigmatic artist

Francis Bacon se expresó a través de la pintura, no de las palabras. Sus autorretratos

espeluznante desnudan el cráneo bajo la piel, el animal encerrado en la forma humana. Sus figuras, generalmente desnudos masculinos, figuras híbridas, espectadores de una crucifixión y personas en jaulas cromadas o en sótanos sadomasoquistas, son imágenes rotas de sí mismo. El autorretrato verbal de Michael Peppiatt no puede igualar esa autocrítica despiadada.

Procedente de la nobleza irlandesa, se enorgullecía de su falta de educación y tenía un escrito torpe, sin puntuación y con ortografía caprichosa. Su obra más grande fueron trípticos, versiones profanas de retablos religiosos; a menudo se refería a ellos como "tryptichs". En una correspondencia que duró décadas, siempre se dirigió a su amigo cercano Denis Wirth-Miller como "Dennis". Además, como admite Peppiatt, Bacon carecía de "facilidad epistolar". El volumen contiene docenas de postales de Mónaco o Marruecos con mensajes lacónicos que consisten en informes meteorológicos, mientras que otra nota terse y totalmente insignificante le pide a su ama de llaves de Londres que venga el lunes.

Más elocuentemente, el joven Bacon escribe a sus patronos pidiendo préstamos, generalmente para pagar deudas de casinos donde jugaba con un frenesí existencial, desafiando el destino en cada tirada accidental de los dados. También envía excusas por sus andanzas ebrias la noche anterior, o explica que se perdió una cita porque había estado inconsciente por una borrachera. Este bebedizo empaña sus entrevistas. "Estoy borracho hoy y no hablo muy claro", le dice frustrado a un curador. Otra conversación se filma en un restaurante de pescado, donde el gerente está de acuerdo en anular las deudas impagas de £ 1,500 de Bacon a cambio de publicidad en televisión; el suministro ininterrumpido de champán y ostras felizmente, pero sin sentido, afloja la lengua anciana del viejo diablo.

Un artista con múltiples facetas

[TABLE OMITTED]

A veces brillan revelaciones a través de la neblina alcohólica. Es bueno saber sobre la veneración de Bacon por la "vida santa" de Marcel Proust. Compartió la determinación de Proust de dejar un "registro profundo de su tiempo" a costa personal, pero mientras Proust selló su habitación con guata, aislado de la sociedad que registró en *En busca del tiempo perdido*, Bacon frecuentaba casinos y tugurios embrutecidos, disfrutando de su exilio de la normalidad complaciente. "Estaba completamente deformado", dice con satisfacción cuando recuerda su inmersión adolescente en el guiso sexual de la Berlín pre-nazi.
