It offers a wide variety of games, including popular mobile titles such as Subway Surfer, Temple Run, and Candy Crush Saga. Poki Games for boys

Subway

Surfers

Subway Surfers is an endless runner game first made for mobile phone's portrait screen. You can choose from different characters but the default character is named Jake. You play as Jake and you have to evade a police officer and his dog. You also have to dodge trains, trams, and other obstacles. You also get to collect coins, power-ups, special gears, etc while you are running.

How to play

Press Arrow Up to

jump, Arrow down to duck down

Press the left and right arrow keys to move to that side.

Press the Space key to activate the hoverboard.

Run as much as you can and

collect as many coins and power-ups as you can.

Candy Crush Saga

Candy Crush Saga is a

game you or even your parents must have been addicted to at some point. It is a simple tile-matching puzzle game wherein you have to match the same coloured candies to crush them. The more you match, the more you crush, and the more levels you win.

This game is

present on Poki.co.in, a Poki alternative.

How to play

You have to hold the mouse or

trackpad cursor to choose a candy, then move it up/down/left/right to place it where you feel there is a match.

Sometimes, you have to try to zoom out and see the entire

board to see if there's a chance of crushing multiple candies by matching a single group of candies. That gets you more points in one go.

### Angry Birds

Angry Birds is a

game that propelled to so much success at one point that it got a movie based on its characters. Here you get to play as different birds, but primarily a red angry bird.

The birds are trying to protect the green-coloured pigs from eating up their eggs. So, the birds have to be slingshotted to a distance where the pigs are. You just have to ensure the slingshot is pulled and positioned in such a manner that the bird hits the pigs.

This game is present on Poki.co.in, a Poki alternative.

How to play

You press and

hold the cursor of the mouse or touchpad to control the slingshot.

You pull it as much

and in the direction that you feel would take the bird to the pigs. A dotted line shows the route the bird would take.

### Super Mario and Sonic

Although we couldn't find the

original Super Mario game on Poki, we managed to find a clone called Super Mario and Sonic on Poki.co.in. You can play as Super Mario or Sonic but both are centered around the Mario game's gameplay mechanics. You run, jump and hit, collecting coins, and evading all valleys until you reach the flagmast.

This game is present on Poki.co.in, a Poki alternative.

How to play

Press the Arrow up to jump.

Press the Arrow left and right to move in that direction

Don't haste and fall into the valley or hit the turtles.

### Master Chess

Chess is a universal game and the reason I picked this one is for

the game graphics. You can play player vs player or player vs the CPU. You get 10 seconds to make a move. That time element adds more seriousness to the game.

How to play

Click the chess piece you want to move.

Click where you want to move it. Of

course, you have to stick to the chess rules. You can't move them wherever you want.

### Moto X3M

till you reach the finish line. It is a replica of Bike Race Pro on Android and iOS.

How to play

Press Arrow up to accelerate, Arrow down to hit the brake.

Press the

right arrow to slant forward and the left arrow to slant backwards.

Control the speed

properly to do the stunts and not fall and crash.

Pool Club

I tried a bunch of pool games. But, I like the single-player mechanism of this game more. You are competing against time and not any other player.

You have to pocket all balls before the clock counts down to zero. You get 60 seconds.

The more balls you drop in the pockets, the more time bonus you get.

How to play

Then, press and pull

the cue stick. Release the cursor to push the stick and hit the cue ball.

Another popular endless racing

game. You play as an explorer who is running with a relic. You have to keep on running collecting coins, and power-ups, and avoiding obstacles, while also not getting caught by some monkeys running after you. You should also be careful not to fall off the path.

How to play

You have to press Arrow up to jump over obstacles, catch a ropeway,

leap over crevices and Arrow down to duck down from hindrances on the path.

Collect

coins and power-ups while you run.

Tennis Masters

You have to hit the ball, move back

and forth and hit it over the net. The game continues until one of the players fails to return the ball or hits it out of bounds.

How to play

Press X to hit or Z to smash the ball.

Move using W to jump, A to move backwards and D to move forward.

Football

Legends

You have to hit the ball to the goal using the head or legs. Position yourself and time properly to hit the ball. Don't leave your goalpost open for the opponent to find a gap.

How to play

Press X to hit the ball.

Press Z to hit a super shot.

Jump by

pressing W

Move forward using D and backwards using A.

Super Tunnel Rush

A car racing

game with a cyberpunk theme and physics-defying stunts. Accelerate but try not to fall off the track and also avoid hitting the obstacles on the way. To speed up, collect the green-coloured power-ups on the way.

How to play

Press A/D or Arrow Left/Right to move in that respective direction.

Avoid the obstacles.

Trivia

Test your knowledge in this game. There are 3 modes:

Classic mode wherein you spin the wheel and wherever the dial lands, that will be the topic you play. So, it would be just random.

Challenge mode

lets you choose the topic and you have to answer all questions without fail.

In the

Party mode, you can compete with others.

How to play

Use the trackpad or mouse to spin the wheel or choose the topic and select the answer.
