Master of Gold: How it works!

Master of Gold Slot is a game in which everything revolves around gold and lots of glitter. The game is played on a 5x3 grid with 25 win lines. The slot has a colorful and inviting design. It offers added entertainment and variety. There is only a relatively low RTP value of 93.36%. Nevertheless, it is a slot machine that can be worthwhile.

Before you start, first set the stake according to your ideas and wishes. This works quite simply below the playing field. Click on the arrow to the left or right. The insert adapts immediately. There are further setting options if you click on the symbol with the 3 lines on the left.

You can set the game speed in this area. If you want to go particularly fast, select Super Turbo. In the right-hand section, select whether you wish to play at risk. You can also deactivate the risk game if you don't want to use it anyway.

The game principle is very simple and easy to understand. You need at least 3 matching symbols to collect a win. Counting is always from left to right on a win line. So there is not that much to consider.

At the top of the playing field you can see how high the jackpots would be in your case. The amount of the jackpot depends on your stake. If you change your stake, the jackpot amounts in the four fields will increase or decrease.
