Paysafecard, styled as paysafecard, is a prepaid payment method that allows customers to purchase goods and services online without using a bank or credit card.

The clue's in the name really, and a good name it is too, one conveying the notion of security and privacy, two features that should be welcome to anyone shopping online.

Obtain a Paysafecard loaded with a preset amount of your choosing and you're free to go on a shopping spree or a roulette spinning frenzy, depending on how you like to spend your disposable income. Whatever your vice, Paysafecard makes it easy to indulge it without leaving a trail of credit card numbers and other identifiable information strewn across the web.

The Company Behind Paysafecard

Originally known as Optimal Payments PLC, Paysafe Group PLC are now the name behind the prepaid card that bears their logo. The company are based in the Isle of Man, a known haven for all things gambling-related.

Online casinos aren't the only destination for Paysafecard holders, but they're certainly a popular one.

In addition to Paysafecard, the company are responsible for Neteller, one of the web's other preferred means of topping up casino accounts. Founded in 1996, Paysafecard is today owned by a publicly listed company that is traded on the London Stock Exchange.

What is Paysafecard?

Paysafecard is a secure and discreet means of paying for gaming, shopping, multimedia, social media and anything else on the web that requires an exchange of money.

Before you can run amok with it, you'll first need to get your hands on one of the cards of course.

On the Paysafecard website you'll find a store finder that will direct you to the nearest outlet in your neighbourhood selling the prepaid cards. Cards are available in the following amounts: £10,

20, 50, 75 and 100, and the card can be paid for in cash. At PayPoint, they're also available as £125, 150 and 175.

Once you've pocketed your own Paysafecard, you can visit any one of the thousands of stores that accept it as payment on the web. When prompted, enter the 16-digit PIN on the card and the transaction will be made instantly, or within a couple of minutes at most.

Where to Buy Paysafecard

On the Paysafecard website, you can search by address, town or postcode to find the nearest stockist in your area. The company has partnered with major retailers including many British high street brands such as Asda, WH Smith, McColl's and PayPoint. With thousands of stores selling Paysafecard, you're likely just minutes from a stockist provided you live in an urban area.

What is Mypaysafecard?

Once you've tried Paysafecard and gotten a feel for how easy it is to use, odds are you'll be back to purchase another card when your first one runs out, then again and again.

That's a lot of cards and a whole lot of 16-digit PINs. To help simplify things, Paysafecard have developed Mypaysafecard, a personal payments account that keeps all your details in one place. Any time you want to top up an existing Paysafecard, you can do so online without needing to trudge to the shops for a new physical card. Simply log in to the service with your username and password and you'll be able to view all of your PINs in one place as well as keep an eye on exactly what you're spending and where. In addition, you'll be able to enjoy exclusive rewards through Paysafecard's loyalty program.

Using Paysafecard to Fund a Roulette Account

Most alternative payment technologies weren't developed specifically for gaming; it's more a case of gaming being one of the many niches where they can be used. Paysafecard is different – it was developed specifically with casinos and betting sites in mind.

From skill games to luck games and from sports betting to e-sports, however and wherever you like to get your kicks, Paysafecard is ideal. If you're planning to use the service at a roulette website, login and look out for Paysafecard listed on the Banking or Cashier page of the site. When prompted, enter the PIN printed on your card and the funds will be transferred virtually right away. In addition to gambling, Paysafecard is also popular with gamers thanks to its support with League of Legends, Steam, PlayStation Store and other major gaming stores.

Other Ways to Use Paysafecard

Because the company who own Paysafecard also now own Neteller and Skrill, the payment services are interlinked. This means that you can top up your Skrill or Neteller account by sending money via Paysafecard. Most online casinos accept at least one of these payment methods, meaning there are few such sites on the web you'll encounter where you can't make a payment using your preferred method. You can also purchase gift vouchers using Paysafecard.

The service allows for Amazon and Swarovski gift vouchers, among others, to be acquired with the aid of Paysafecard.

Betting Sites That Accept Paysafecard

Because Paysafecard is operated by a British company, based in the Isle of Man, the prepaid cards are accepted by a good number of UK casinos, roulette sites, sportsbooks and bingo websites. Major sites where Paysafecard is accepted include Bet365, Betfair and PokerStars. There's also 888, 888ladies and 888sport. Throw in major high street names such as bookmaker William Hill plus Betsson and it's fair to say that Paysafecard is ubiquitous within the industry, particularly in the UK and mainland Europe.

Pros and Cons of Using Paysafecard to Play Roulette

Paysafecard is extremely easy to use and is ideal for customers who don't have a credit card but would still like to be able to pay for goods and services online including funding a casino account. One of the best things about Paysafecard is the fact that it can be purchased in cash in a real world store. This provides a level of privacy that few other payment systems can match. For that reason alone, Paysafecard is understandably a popular choice with gamblers.

The fact that payments clear almost instantly and with no fee is also a bonus. It's possible that the roulette website may apply a surcharge for using Paysafecard, but few do.

Some players like Paysafecard because it prevents them from spending beyond their means: you have to hand over cash (or use your debit card) to add funds to Paysafecard, meaning you can't run up debt as you might with a credit card.

While the benefits of Paysafecard are numerous, the service does have its drawbacks. If you live in a rural area, you may be miles away from a store selling Paysafecard. Despite being sold at over 500,000 outlets, it's also not available in certain countries. Moreover, there are many casinos and roulette sites that won't accept Paysafecard.

In such cases, however, one workaround if you already have funds on Paysafecard is to transfer them to a Skrill or Neteller e-wallet and deposit the funds into your casino account that way.

Final Thoughts on Paysafecard

Paysafecard is one of the web's most popular means of funding a casino account and for good reason. It's a payment option that's particularly suited to mobile players, although anyone can use Paysafecard to transfer funds to their casino account. Purchase one of the prepaid cards loaded with a denomination of your choosing and then enter the code where prompted on the casino payment page. Funds will clear instantly. The only thing to be aware of when using Paysafecard is that it's a deposit option only: when it comes to withdrawing your winnings you'll need to use an alternate method.
