American physician Kenneth H.

Cooper (born March 4, 1931, Oklahoma City)[1] is a doctor of medicine and former Air Force lieutenant colonel from Oklahoma, who pioneered the benefits of doing aerobic exercise for maintaining and improving health.

[2][3] In 1966 he coined the term, and his book Aerobics was published in 1968,[4][5] which

emphasized a point system for improving the cardiovascular system.

The popular mass market version was The New Aerobics (ISBN 0-553-26874-0), published ten years later.

#### Career [ edit ]

A native of Oklahoma City, Cooper completed a 13-year military career in both the army and air force.

During his Air Force career, he devised the simple Cooper test, which could conveniently and quickly establish the fitness level of large numbers of people.

Originally the distance run in 12 minutes, it correlated well with the existing concept of VO<sub>2</sub> max. Cooper left the Air Force in 1970, when he and his wife, Millie, moved to Dallas to start his companies.

Cooper is the founder of the non-profit research and education organization, The Cooper Institute, which was opened in 1970.

Cooper is also the founder of and Chairman at the Cooper Aerobics Center in Dallas and McKinney, Texas, which comprises eight health and wellness entities.[6]

Cooper received the Golden Plate Award of the American Academy of Achievement in 1986.[7]

Cooper developed the Smart Snack Ribbon guidelines in 2003 for the Frito-Lay division of PepsiCo.[8]

Cooper has published 19 books that have sold 30 million copies and been translated into 41 languages.

Cooper encouraged millions to become active and helped to launch modern fitness culture. He is known as the "father of aerobics".[9][10]

He and his wife are parents of a son and daughter.

Cooper has written about the importance of Christian religious faith in his life.[11][12]

#### Ideas on exercise and training effect [ edit ]

Cooper studied the effect of exercise in the late 1960s and popularized the term "training effect"[13] although that term had been used before.

[14][15] The measured effects were that muscles of respiration were strengthened, the heart was strengthened, blood pressure was sometimes lowered and the total amount of blood and number of red blood cells increased, making the blood a more efficient carrier of oxygen.

VO<sub>2</sub> Max was increased.

[citation needed] He published his ideas in a book, Aerobics in 1968.

The exercise necessary can be accomplished by any aerobic exercise in a wide variety of schedules - Cooper found it best to award "points" for each amount of exercise[16] and require 30 points a week to maintain the Training Effect.[citation needed]

Cooper instead recommended a "12-minute test" (the Cooper test) followed by adherence to the appropriate starting-up schedule in his book.

As always, he recommends that a physical exam should precede any exercise program.

The physiological effects of training have received much further study since Cooper's original work.

It is now generally considered that effects of exercise on general metabolic rate (post-exercise) are comparatively small and the greatest effect occurs for only a few hours.

Though endurance training does increase the VO<sub>2</sub> max of many people, there is considerable variation in the degree to which it increases VO<sub>2</sub> max between individuals.

## Pet Shop Boys lanzan nuevo álbum después de cuatro años

La gravedad cultural hace que ciertos eventos sean inevitables, como Sean Lennon y James McCartney escribiendo canciones juntos. O que la pareja de pop británica más exitosa regrese para refinar y actualizar el sonido de su era imperial a fines de los 80. *No obstante* es el primer álbum de Pet Shop Boys desde *Hotspot* de 2024, que concluyó su trilogía producida por Stuart Price. El nuevo productor James Ford aplica la simplicidad del debut de 1986 *Please* y la rica orquestación de *Behaviour* de 1990 a esta colección que agrada a los fanáticos.

### Un regreso a la simplicidad y la opulencia orquestal

Para aquellos que desean que los álbumes de la pareja vengan con una lista de lectura oculta dentro de un montón de volantes de club, hay *Dancing Star*, un hermoso biopic de tres minutos de Rudolf Nureyev - el ruso que se une a la gran fiesta de personajes históricos, incluidos Casanova, Debussy, Hitler y la Reina, presentados en las letras de Neil Tennant.

Tennant se especializa en la clase de narración concisa que lo convertiría en un excelente laureado del pueblo, y *New London Boy*, sobre su adolescencia glam rock, es gloriosamente conmovedora. Aún mejor, musicalmente, es la thump del handbag abandonado de *Loneliness*. *Schlager Hit Parade* es un error, falta la incertidumbre reflexiva con que la pareja sobresale, pero es un error raro. En esencia, hay tres tipos de álbumes de Pet Shop Boys: cambio de vida, grandes y buenos. Este es un gran éxito.
