The best thing to do when starting to play is learn the game and get to know all the rules and basic strategies.

Here, we'll help you learn all the basics to play online blackjack.

First, in blackjack you play against the Dealer to determine which one has the better hand.

To win, you need to get a score closer to 21 than him.

If you or the dealer get more than 21 points, then you both lose automatically.

On the opposite, if you get 21 in your first hand you score a "Blackjack" and win automatically. It's really hard to get 21 in your opening hand, thus most of the times you'll need to make your way up to 21 asking more cards.

These, are some of the actions you have to get closer to the winning score: Hit: add one card to your hand to get more points.

Stand: if you think your hand is good enough, then you can choose not to get any more cards. Your score will be set and the winner will be declared.

Double: double your bet.

Surrender: this action depends on the type of Blackjack you are playing.

However, if you have the option you can choose to give away your first two cards and the half of your bet will be refunded.

All winning numbers are chosen randomly and automatically marked on your card.

The best part of Video Bingo is that no skill is required, so to win and dominate the game you only need to practice.

You'll eventually understand everything.

Winning is at the tip of your fingers! Jackpot This is the place to win big.

All games here have big prizes, you can find them classified according to their jackpot size, if you are aiming to win a huge amount of money, then this is where you want to be! Before playing, choose the jackpot that suits you best, for that you can compare the pots or the type of game.

Video Poker Video Poker is the place where slots and poker join to create something amazing.

With the overall format of slots and the playstyle of poker, you'll play to get the best poker hand.

The main goal is to get the minimum required hand to get a payment; this can change according to the game, so make sure to check the pay table.

If you are familiar with poker, then you'll find Video Poker very simple, but if you don't, then we're here to help you out.

You start with a five card hand, which you can improve changing some cards.

After you change your card –or not– your hand is reviewed.

If you win, you'll have the option of doubling your payment or losing everything in the Double or Nothing feature.

In this special round, you face the dealer to determine who has the highest card.

The dealer's card will be facing up and you can choose between four cards dealt facing down.

If your card is higher than the dealer's, then you win and your payment is doubled.

If you'd like you can play one more round or keep the money.

It's important for you to know which hands help you win and the best part of Video Poker is that some games allow you to have bonus hands.

Royal Flush: 10, Jack, Queen, King and Ace of the same suit.

Straight Flush: five consecutive cards of the same suit.

Four of a Kind: four cards of the same value.

Full House: three cards of the same value and a pair.

Flush: five cards of the same suit.

Straight: five consecutive cards, no matter the suit.

Three of a Kind: three cards of the same value.

Two Pair: two pairs of the same value.

Pair: two cards of the same value.

Table Games Who said that table games couldn't be played online? The Table Games area is

one of our favorite areas.

There are different types of casino games, in addition to the all-time favorite Blackjack, Craps and these excellent exclusive adaptations of classics like: Spin the Wheel, Andar Bahar and Teen Patti Rapid.

Table Games give you the option of learning and playing at the same time, giving you some time to exercise your mind and win incredible prizes! Each game has its own rules, so each experience is unique.
