# Estados Unidos amplía el uso de tecnología en aduanas para hacer frente al aumento de viajeros internacionales

A medida que viajar sigue en auge tras los periodos de lentitud relacionados con la pandemia, la Protección de Aduanas y Fronteras de EE. UU. está expandiendo el uso de tecnologías como la aplicación Mobile Passport Control utilizada por la familia De Staercke en un esfuerzo por procesar el número creciente de pasajeros que viajan internacionalmente. Y con eventos como un eclipse solar inusual, los Juegos Olímpicos en París y las vacaciones de verano que siguen impulsando el viaje internacional, esos números no parecen disminuir en el corto plazo.

Los funcionarios de Protección de Aduanas y Fronteras le dieron a The Associated Press una visión detrás de escena de algunas de las tecnologías que han estado utilizando y lo que puede esperar en los meses y años venideros.

## EL CONTEXTO

Durante el año fiscal 2024, la agencia procesó a más de 394 millones de viajeros en los puertos de entrada. Un aumento del 24% con respecto al año anterior. Al mirar los 20 principales aeropuertos del país por volumen de pasajeros, los oficiales procesaron un 31% más de viajeros, mientras que los tiempos de espera promedio aumentaron 11%. Y en algunos de los aeropuertos más concurridos, los tiempos de espera han aumentado de manera insignificante o incluso disminuido. En el Aeropuerto JFK de Nueva York, por ejemplo, los tiempos de espera bajaron en 0,4 segundo promedio, mientras que los oficiales de Aduanas y Protección Fronteriza procesaron un 33% más de viajeros.

Aumentan los viajes internacionales en familia, en lugar de viajes internacionales para negocios.

## MAS APLICACIONES

Las aplicaciones diseñadas para agilizar el movimiento de los pasajeros a través del aeropuerto son una vía prometedora. La aplicación Mobile Passport Control utilizada por la familia belga es un ejemplo de ello. Está disponible para ciudadanos estadounidenses, pero también para residentes permanentes legales, algunos canadienses y viajeros de países que forman parte del Programa de Exención de Visa que ya hayan estado en los EE. UU. al menos una vez.

Los viajeros cargan sus {img}s y la información a la aplicación. Siendo examinados, son guiados hacia una línea separada. El oficial tomará una {img} de un miembro de la familia y se cargarán automáticamente las {img}s y sus detalles completos de todo el grupo.

La aplicación se lanzó en 2024, actualmente está tratando de atraer a más usuarios, colaborando con las aerolíneas para permitir que los usuarios descarguen la aplicación mientras el avión está en vuelo y poniendo carteles en los aeropuertos para informarles sobre la aplicación. El año pasado, un récord de 4.1 millones de personas entraron al país utilizando la aplicación.
