We Know that Alexander me Great enjoysted bseney and ;The History Of Gold Create /IDFA – International Dairies Food que With cute graphics, a hatful of fun features and a 4,570 max win, Play'n GO's Reactoonz slot is one of the most recognisable and playable casino games online.

Iconic design

& gameplay Non-stop action Complicated feature set RTP below industry average

“Phone game meets slot with spectacular results – I never get tired of Reactoonz”

Dan Grant, casino expert

Is Reactoonz the right slot for you?

I must have

played thousands of online slots in the last few years and when a Cluster Pays slot comes along, it's always a fun break from traditional reels and paylines.

Instead of

reels, Reactoonz is played on a 7x7 grid. You make winning combos when 5 or more of the same symbol are connected in a cluster. As well as the Cluster Pays format, it also has cascading symbol drops which create the kind of chain reactions suggested by the slot's name. Winning symbols are removed from the grid so that new symbols can drop down, generating more chances to win from the same go.

Every time you spin a win, you charge

up the Quantum Leap meters below the reels. If you can fully charge up the meter in the same go, you'll randomly trigger one of the quantum features I discuss later in this Reactoonz slot review.

This meter-powered format makes Reactoonz an all-action slot

with few quiet periods. There aren't many slots players who stick exclusively play grid slots like this, but there's no doubt Cluster Pays slots deserve a place in your game mix, and Reactoonz is arguably the top slot in that category.

Game features

Reactoonz

has none of the usual Free Spins and other features you'll find on your average slot game, but then Reactoonz isn't your average slot.

If you can string together enough

reactions in the same game, you'll charge the meter and unleash one of these fun

features.

Meter modifiers

Implosion: When triggered, 3 to 6 symbols are turned into wilds and all adjacent symbols are destroyed.

When triggered, 3 to 6 symbols are turned into wilds and all adjacent symbols are destroyed. Alternation: A randomly chosen low-value symbol is transformed into a different symbol. However, if you don't have any low-value symbols on the grid, a high-value alien will be randomly selected instead.

This feature is sure to get some extraterrestrial adrenaline pumping.

A randomly chosen

low-value symbol is transformed into a different symbol. However, if you don't have any low-value symbols on the grid, a high-value alien will be randomly selected instead.

This feature is sure to get some extraterrestrial adrenaline pumping. Demotion: All low-value symbols are destroyed and removed from the grid. Yep, it's a good 'un!

All

low-value symbols are destroyed and removed from the grid. Yep, it's a good 'un!

Incision: A wild is put into the centre which creates 2 intersecting diagonal lines. It will then show the same randomly picked symbol.

Gargantoon

This special feature is

triggered in the Reactoonz slot game when all 5 meters are fully charged. The Gargantoon adds a 3x3 wild randomly onto the grid and with each cascade, it divides to become two 2x2 wilds. During the cascade, the Gargantoon divides again into nine 1x1 wilds. If you don't win, 1 quantum feature is triggered at random.

Instability

If you

have a non-winning spin in the Gargantoon feature, the Instability feature is triggered, which means the Gargantoon can randomly drop between 4 to 8 wild symbols. This Reactoonz feature helps you land more winning combinations. You gotta love that!

Giantoonz

This is triggered when 4 matching symbols adjacent to each other in a 2x2 shape appear. This Reactoonz game feature means that all wins are doubled in any winning combination.

Fluctuation

One randomly selected low-value symbol will be marked as the Fluctuating symbol during each spin. If it appears as part of a winning combination it will leave 2 wilds behind on the grid.

What the provider says

"Reactoonz

is a playful parallel universe charged with stellar power. The series has become one of the best-loved grid slots around the world"

Play'n GO

Other games like this

If you like

this style of slot, you'll be pleased to know that Reactoonz slot is just one in a 5-game 'oonz' series from Play'n GO that includes Energoonz, Dr Toonz, Gigantoonz and Reactoonz 2. They're all great examples of grid slots, but there are many others to get your teeth into, including the iconic Sweet Bonanza.

Reactoonz 2

Three years after the

release of the original came the sequel, the Reactoonz 2 slot. Again, we get a 7x7 grid with Cluster Pays and cascading symbols. The key addition is a new set of features and

reel modifiers and a third level-up meter. If your brain can handle even more feature complexity, give it a spin.

Sweet Bonanza

Pragmatic Play's 2024 smash hit is another grid game with mobile game app DNA but this time, symbols don't have to be connected in clusters, they can appear anywhere on the reels. Unlike Reactoonz games, Sweet Bonanza online slot has a Free Spins bonus feature with candy bomb multipliers, plus a much higher 21,000X max win.

My verdict

Between its extra-terrestrial features, super gamey graphics and edge-of-your-seat volatility, Reactoonz is a truly unique slot. Create your PlayOJO account in seconds and try it for free!

If you'd like to play Reactoonz or

any of PlayOJO's 3,000 online slots, sign up now and you'll also get 50 free spins (worth 10p each) on the Book of Dead slot when you make your 1st deposit (terms apply).

FAQs

What's the difference between this Reactoonz online slot and Reactoonz

2?

The original Reactoonz slot has 2 level-up meters and 8 bonus features and a 4,570X max win. Reactoonz 2 has 3 level-up meters, even more features and a 5,083X top prize.

What is the Reactoonz RTP?

With a 91.49% RTP, Reactoonz is one of the lower RTP slots online. However during a session of hundreds of thousands of spins, Reactoonz' volatility is a much more important factor in payouts than its RTP. If you play the Reactoonz UK slot at PlayOJO, you'll also get money back on every spin with OJOplus, our real time, real cash rewards.

Can I play Reactoonz slots for free?

Reactoonz and

Reactoonz 2 are particularly complex slots, so it's handy that PlayOJO has Reactoonz demo versions so you can experience as much Reactoonz free play as you like before you play for real. Simply create your PlayOJO account, search for Reactoonz and choose Try for Free.

Assine a newsletter da poker livestream sobre as últimas notícias científicas. Descubra o universo com notícias sobre descobertas fascinantes, avanços científicos e muito mais

A NASA está programada para lançar o primeiro de dois satélites de pesquisa para medir quanta energia térmica é perdida para o espaço no Ártico e na Antártida.

O pequeno satélite do tamanho de uma caixa de sapato deve ser lançado no sábado a bordo de um foguete eletrônico da Rocket Lab a partir do complexo de lançamento da Rocket Lab poker livestream Mahia, na Nova Zelândia, durante uma janela que se abre às 7:15 horas locais (3:15 da manhã ET).

A missão científica do clima, conhecida como Experimento de Energia Radiante Polar no Infravermelho Distante, ou PREFIRE, visa aprimorar a compreensão dos cientistas sobre como vapor d'água, nuvens e outros elementos da atmosfera terrestre retêm calor e o impedem de irradiar para o espaço.

Os dados coletados devem informar modelos climáticos e, espera-se, conduzir a melhores previsões de como a crise climática afetará os níveis do mar, o tempo, a cobertura de neve e gelo, disse a NASA.

A Terra absorve muita energia do sol nas regiões tropicais. O tempo e as correntes oceânicas movem essa energia térmica para as regiões polares, onde o calor irradia para o espaço. Grande parte dessa energia está nas longitudes de onda infravermelha distante e nunca foi medida sistematicamente antes, acrescentou a NASA.

PREFIRE é composto por dois CubeSats equipados com sensores de calor especializados miniaturizados. A data de lançamento do segundo satélite será anunciada brevemente após o lançamento do primeiro satélite, disse a NASA.

Ao ser lançados, os dois satélites estarão poker livestream órbitas polares quase-síncronas - passando sobre um determinado local poker livestream momentos diferentes, observando a mesma área dentro de horas um do outro.

Isso deve permitir que os satélites colem dados sobre fenômenos que ocorrem poker livestream escala de tempo curta e exigem medições frequentes - como a quantidade de cobertura nuvens afeta a temperatura na Terra abaixo dela.
