One unique feature of Aviator is the fact that it allows you to make two bets at once. This gives you an interesting way to try and balance out two contrasting bet types. For example, you could keep things safe by betting on a multiplier of 1.50, and then add an element of risk by betting on a multiplier of 5.00.

Aviator is an attractive Crash game developed by Spribe. The game is about taking off the plane and the main objective is to collect the bet before the plane disappears from the screen. The longer the plane stays in the air, the bigger the multiplier, leading to a higher payout!
