Monopoly Live is

typically played on a vertically mounted money wheel that is divided into segments, each representing different betting options. As a bettor, your objective is to predict where the wheel will stop. Correct assumptions will win you prizes and vice versa.

To understand how the Monopoly live game works, we've sectioned the rules in different phases.

First, we've got the betting phase. Here, as a player, you place bets on various segments of the wheel even before the game commences. These segments include numbers (1, 2, 5, and 10), as well as special segments like "Chance," "2 Rolls," and "4 Rolls."

Once you're done betting, the live host (dealing the game) will spin the wheel.

If the wheel lands on a numbered segment where you've placed your bet, you win a corresponding payout (e.g., 2x, 5x, 10x your bet).

In case your Monopoly live casino score corresponds to a special segment, proceed as follows:

A Monopoly live casino

session features a bonus round. During that, players virtually move around the board.

The movement is done on the basis of Monopoly live results (as achieved by respective rolls).

The round is known for vivid properties that offer different multipliers.

Landing a prediction on any of the properties increases the multiplier for subsequent rolls.

The final phase involves reading the scores and winning. Needless to say, you can win based on your bets' multipliers and how the same corresponds to the wheel's segments.

For instance, if you bet on the number 5 and the wheel stops on the number 5, you win according to the multiplier associated with that number.
