conteúdo:

Although online slots also offer the highest payout per bet, many players often wonder if people really do win jackpots by playing online casino slots not on Gamstop. It is an irrefutable fact that people win jackpots at online slots unless, of course, you go to a rogue casino.

[jackpot poker da pokerstars™](#)

No one has hit the Powerball jackpot playing online... yet. But many people have won second-tier Powerball prizes, including multi-million dollar payouts, by playing the lottery online or using a lottery app. In fact, 14 lottery fans have ordered winning Powerball tickets worth R\$1 million or more using Jackpocket.

[jackpot poker da pokerstars™](#)

An ace-high straight flush, commonly known as a royal flush, is the best possible hand in many variants of poker.

In poker, players form sets of five playing cards, called hands, according to the rules of the game.[1] Each hand has a rank, which is compared against the ranks of other hands participating in the showdown to decide who wins the pot.[2] In high games, like Texas hold 'em and seven-card stud, the highest-ranking hands win. In low games, like razz, the lowest-ranking hands win. In high-low split games, both the highest-ranking and lowest-ranking hands win, though different rules are used to rank the high and low hands.[3][4]

Each hand belongs to a category determined by the patterns formed by its cards. A hand in a higher-ranking category always ranks higher than a hand in a lower-ranking category. A hand is ranked within its category using the ranks of its cards. Individual cards are ranked, from highest to lowest: A, K, Q, J, 10, 9, 8, 7, 6, 5, 4, 3 and 2.[5] However, aces have the highest rank under ace-to-five high or six-to-ace low rules, or under high rules as part of a five-high straight or straight flush.[6][7] Suits are not ranked, so hands that differ by suit alone are of equal rank.[8]

There are nine categories of hand when using a standard 52-card deck, except under ace-to-five low rules where straights, flushes and straight flushes are not recognized. An additional category, five of a kind, exists when using one or more wild cards. The fewer hands a category contains, the higher its rank.[9] There are $52! / (52 - 5)! = 311,875,200$ ways to deal five cards from the deck but only $52! / (52 - 5)! / 5! = 2,598,960$ distinct hands, because the order in which cards are dealt or arranged in a hand does not matter.[10] Moreover, since hands

differing only by suit are of equal rank, there are only 7,462 distinct hand ranks.[11]

Hand-ranking categories [edit]

* Only possible when using one or more wild cards ** Category does not exist under ace-to-five low rules

Five of a kind [edit]

Five of a kind, aces

Five of a kind is a hand that contains five cards of one rank, such as 3 3 3 3 3 ("five of a kind, threes"). It ranks above a straight flush but is only possible when using one or more wild cards, as there are only four cards of each rank in the deck.[6] Five of a kind, aces, A A A A Jkr, becomes possible when a joker is added to the deck as a bug, a form of wild card that may act as a fifth ace.[5] Other wild card rules allow jokers or other designated cards to represent any card in the deck, making it possible to form five of a kind of any rank.[12]

Each five

of a kind is ranked by the rank of its quintuplet. For example, Q Q Q Q Q ranks higher than 6 6 6 6 6.[6][13]

Straight flush [edit]

A jack-high straight flush

A straight flush is a hand that contains five cards of sequential rank, all of the same suit, such as Q J 10 9 8 (a "queen-high straight flush").[4] It ranks below five of a kind and above four of a kind.[5] Under high rules, an ace can rank either high (as in A K Q J 10, an ace-high straight flush) or low (as in 5 4 3 2 A, a five-high straight flush), but cannot simultaneously rank both high and low (so Q K A 2 3 is an ace-high flush, but not a straight).[6][13] Under deuce-to-seven low rules, an ace always ranks high (so 5 4 3 2 A is an ace-high flush). Under ace-to-six low rules, an ace always ranks low (so A K Q J 10 is a king-high flush).[14] Under ace-to-five low rules, straight flushes are not possible (so 9 8 7 6 5 is a nine-high hand).[7]

Each straight flush is ranked by the rank of its highest-ranking card. For example, 10 9 8 7 6 ranks higher than 8 7 6 5 4, which ranks higher than 6 5 4 3 2. Straight flush hands that differ by suit alone, such as 7 6 5 4 3 and 7 6 5 4 3, are of equal rank.[6][13]

An ace-high

straight flush, such as A K Q J 10, is called a royal flush or royal straight flush and is the best possible hand in ace-high games when wild cards are not used.[5][15][16] A five-high straight flush, such as 5 4 3 2 A, is called a steel wheel and is both the best low hand and usually the best high hand of the showdown in ace-to-five high-low split games.[4]

Four of a kind [edit]

Four of a kind, fives

Four

of a kind, also known as quads, is a hand that contains four cards of one rank and one card of another rank (the kicker), such as 9 9 9 9 J ("four of a kind, nines"). It ranks below a straight flush and above a full house.[5]

Each four of a kind is ranked

first by the rank of its quadruplet, and then by the rank of its kicker. For example, K K K K 3 ranks higher than 7 7 7 7 Q, which ranks higher than 7 7 7 7 10. Four of a kind hands that differ by suit alone, such as 4 4 4 4 9 and 4 4 4 4 9, are of equal rank.[6][13]

Full house [edit]

A full house, sixes over kings

A full house, also known as a full boat or a tight or a boat (and originally called a full hand), is a hand that contains three cards of one rank and two cards of another rank, such as 3 3 3 6 6 (a "full house, threes over sixes" or "threes full of sixes" or "threes full").^{[17][18]} It ranks below four of a kind and above a flush.^[5]

Each full house is ranked first by the rank of its triplet, and then by the rank of its pair. For example, 8 8 8 7 7 ranks higher than 4 4 4 9 9, which ranks higher than 4 4 4 5 5. Full house hands that differ by suit alone, such as K K K J J and K K K J J, are of equal rank.^{[6][13]}

Flush [edit]

A jack-high flush

A flush is a hand that contains five cards all of the same suit, not all of sequential rank, such as K 10 7 6 4 (a "king-high flush" or a "king-ten-high flush").^[19] It ranks below a full house and above a straight.^[5] Under ace-to-five low rules, flushes are not possible (so J 8 4 3 2 is a jack-high hand).^[7]

Each flush

is ranked first by the rank of its highest-ranking card, then by the rank of its second highest-ranking card, then by the rank of its third highest-ranking card, then by the rank of its fourth highest-ranking card, and finally by the rank of its lowest-ranking card. For example, K J 9 6 4 ranks higher than Q J 7 6 5, which ranks higher than J 10 9 4 2, which ranks higher than J 10 8 6 3, which ranks higher than J 10 8 4 3, which ranks higher than J 10 8 4 2. Flush hands that differ by suit alone, such as 10 8 7 6 5 and 10 8 7 6 5, are of equal rank.^{[6][13]}

Straight [edit]

A ten-high straight

A straight is a hand that contains five cards of sequential rank, not all of the same suit, such as 7 6 5 4 3 (a "seven-high straight"). It ranks below a flush and above three of a kind.^[5] Under high rules, an ace can rank either high (as in A K Q J 10, an ace-high straight) or low (as in 5 4 3 2 A, a five-high straight), but cannot simultaneously rank both high and low (so Q K A 2 3 is an ace-high hand).^{[6][13]} Under deuce-to-seven low rules, an ace always ranks high (so 5 4 3 2 A is an ace-high hand). Under ace-to-six low rules, an ace always ranks low (so A K Q J 10 is a king-high hand).^[14] Under ace-to-five low rules, straights are not possible (so 10 9 8 7 6 is a ten-high hand).^[7]

Each straight is ranked by the rank of its highest-ranking card. For example, J 10 9 8 7 ranks higher than 10 9 8 7 6, which ranks higher than 6 5 4 3 2. Straight hands that differ by suit alone, such as 9 8 7 6 5 and 9 8 7 6 5, are of equal rank.^{[6][13]}

An ace-high straight, such as A K Q J 10, is called a Broadway straight,^[20] while a five-high straight, such as 5 4 3 2 A, is called a baby straight,^[21] bicycle or wheel and is the best possible hand in ace-to-five low games (where it is a high card hand, not a straight).^{[22][23]}

Three of a kind [edit]

]

Three of a kind, queens

Three of a kind, also known as trips or a set, is a hand that contains three cards of one rank and two cards of two other ranks (the kickers), such as 2 2 2 K 6 ("three of a kind, twos" or "trip twos" or a "set of twos"). It ranks

below a straight and above two pair.[5]

Each three of a kind is ranked first by the

rank of its triplet, then by the rank of its highest-ranking kicker, and finally by the

rank of its lowest-ranking kicker. For example, 6 6 6 Q 4 ranks higher than 3 3

3 K 2, which ranks higher than 3 3 3 J 7, which ranks higher than 3 3 3 J

5. Three of a kind hands that differ by suit alone, such as 9 9 9 10 8 and 9 9

9 10 8, are of equal rank.[6][13]

In community card games, such as Texas hold 'em,

three of a kind is called a set only when it comprises a pocket pair and a third card

on the board.[24]

Two pair [edit]

Two pair, jacks and threes

Two pair is a hand that

contains two cards of one rank, two cards of another rank and one card of a third rank

(the kicker), such as J J 4 4 9 ("two pair, jacks and fours" or "two pair, jacks

over fours" or "jacks up").[17][25] It ranks below three of a kind and above one

pair.[5]

Each two pair is ranked first by the rank of its higher-ranking pair, then by

the rank of its lower-ranking pair, and finally by the rank of its kicker. For example,

10 10 2 2 K ranks higher than 5 5 4 4 10, which ranks higher than 5 5 3 3

Q, which ranks higher than 5 5 3 3 J. Two pair hands that differ by suit alone,

such as K K 7 7 8 and K K 7 7 8, are of equal rank.[6][13]

One pair [edit

]

One pair, tens

One pair, or simply a pair, is a hand that contains two cards of one

rank and three cards of three other ranks (the kickers), such as 4 4 K 10 5 ("one

pair, fours" or a "pair of fours"). It ranks below two pair and above high

card.[5]

Each one pair is ranked first by the rank of its pair, then by the rank of its

highest-ranking kicker, then by the rank of its second highest-ranking kicker, and

finally by the rank of its lowest-ranking kicker. For example, 9 9 Q J 5 ranks

higher than 6 6 K 7 4, which ranks higher than 6 6 Q J 2, which ranks higher

than 6 6 Q 8 7, which ranks higher than 6 6 Q 8 3. One-pair hands that differ

by suit alone, such as 8 8 10 6 5 and 8 8 10 6 5, are of equal

rank.[6][13]

High card [edit]

High card, king

High card, also known as no pair or

simply nothing, is a hand that does not fall into any other category, such as K J 8

7 4 ("high card, king" or "king-jack-high" or "king-high").[17][26] Note that under

ace-to-five low rules, straights, flushes and straight flushes are not possible, so

such hands are instead high card hands.[7] It ranks below one pair.[5]

Each high card

hand is ranked first by the rank of its highest-ranking card, then by the rank of its

second highest-ranking card, then by the rank of its third highest-ranking card, then

by the rank of its fourth highest-ranking card, and finally by the rank of its

lowest-ranking card. For example, K 6 5 3 2 ranks higher than Q J 6 5 3,

which ranks higher than Q 10 8 7 4, which ranks higher than Q 10 7 6 4, which

ranks higher than Q 10 7 5 4, which ranks higher than Q 10 7 5 2. High card

hands that differ by suit alone, such as 10 8 7 6 4 and 10 8 7 6 4, are of

equal rank.[6][13]

Under deuce-to-seven low rules, a seven-five-high hand, such as 7

5 4 3 2, is the best possible hand.[27] Under ace-to-six low rules, where aces have the lowest rank, a six-four-high hand, such as 6 4 3 2 A, is the best possible hand.[28] Under ace-to-five low rules, where aces have the lowest rank and straights, flushes and straight flushes are not possible, a five-high hand, such as 5 4 3 2 A or 5 4 3 2 A, commonly known as a bicycle or wheel, is the best possible hand.[7][22]

Trabalhador ferido de formiga sofre amputação de emergência realizada por colega de ninho

Parece uma cena de filme de Spielberg: um trabalhador ferido sofre uma amputação de emergência, realizada por um de seus colegas de trabalho, permitindo-lhe viver um dia a mais. Mas essa não é uma história humana - é um comportamento observado jackpot poker da pokerstars TM formigas.

Embora o cuidado de feridas tenha sido visto jackpot poker da pokerstars TM formigas antes, cientistas dizem que a descoberta é o primeiro exemplo de um animal não humano realizando amputações salvadoras da vida, com a operação realizada para tratar feridas nas pernas e prevenir a ocorrência ou propagação de infecção.

Tratamento adaptado à localização da lesão

Estudos revelam que as formigas parecem diagnosticar, jackpot poker da pokerstars™ certa medida, as feridas e tratá-las adequadamente para maximizar a sobrevivência da lesionada. Os pesquisadores relatam no periódico *Current Biology* como cortaram formigas carpinteiras-da-Flórida (*Camponotus floridanus*) no membro posterior direito e observaram as respostas de seus companheiros de ninho por uma semana. Os resultados mostraram que 13 de 17 formigas com feridas no fêmur ou coxa passaram por amputação realizada por seus colegas de ninho, com o membro cortado no trocânter - o local do quadril. "Os colegas de ninho começam a levar a ferida antes de subir pelo membro ferido com suas partes bucais até alcançarem o trocânter. Em seguida, os colegas de ninho procedem a morder repetidamente o membro ferido até que ele seja cortado", escreveu a equipe. Por outro lado, nenhuma amputação foi observada nas nove formigas com feridas na tíbia, ou perna inferior. Em vez disso, essas formigas receberam apenas cuidados com feridas de seus colegas de ninho na forma de lambimento. A equipe registrou resultados semelhantes quando a configuração foi repetida usando formigas com feridas infectadas.

Benefícios do tratamento de feridas

Outro conjunto de experimentos revelou que formigas feridas com infecções estavam muito mais propensas a morrer do que aquelas com feridas estéreis. No entanto, suas taxas de sobrevivência aumentaram significativamente se as formigas feridas fossem devolvidas às colônias - sugerindo que os tratamentos fornecidos por seus colegas de ninho eram benéficos - ou o membro ferido fosse amputado por pesquisadores, embora isso apenas trouxesse benefícios para as feridas no fêmur.

O Dr. Erik Frank disse que, inicialmente, foi contra-intuitivo que as amputações não também fossem benéficas para as feridas na tíbia. No entanto, trabalhos adicionais sugeriram que as feridas no fêmur, mas não as feridas na tíbia, estavam associadas a danos jackpot poker da pokerstars™ estruturas que bombeavam um fluido corporal similar ao sangue pelos corpos das formigas. Como resultado, as infecções na tíbia se espalhavam pelo corpo muito mais rápido do que as infecções no fêmur, o que significa que a amputação da primeira fez pouco para aprimorar a sobrevivência.

Frank disse que as formigas provavelmente se machucariam mais frequentemente jackpot poker da pokerstars™ disputas territoriais com colônias vizinhas, mas tratar os feridos trazia benefícios. "Vemos nestas espécies de *Camponotus* que aproximadamente 10-11% das formigas que saem para caçar ou procurar alimentos carregam uma lesão de um dia anterior. Portanto, elas ainda desempenham um papel importante na colônia", disse ele.

O prof. Francis Ratnieks, da Universidade de Sussex, que não participou do trabalho, disse que não ficou surpreso com os resultados. "É mais um exemplo de adaptação na vida das abelhas operárias sociais jackpot poker da pokerstars™ que as operárias ajudam uns aos outros a trabalharem para jackpot poker da pokerstars™ colônia e ajudarem jackpot poker da pokerstars™ colônia", disse ele.

"Como quando um trabalhador de abelha faz um passeio de dança para direcionar um colega de ninho para a comida, ou quando um trabalhador sacrifica jackpot poker da pokerstars™ vida jackpot poker da pokerstars™ defesa da colônia, ou aqui, onde os trabalhadores amputam os membros de uma formiga ferida ou infectada".
