There are almost 100 tables of it in the market these days and over 200 double zero roulette tables. However, there are a few Las Vegas casinos that deal single zero roulette. We counted 28 tables during our last table game survey. That is just 8% of the total roulette tables in the Las Vegas market. There are three times more triple zero wheels.

There are two types of Las Vegas single zero roulette. One is called European Roulette. It uses a single zero wheel and adds several bets that are not available on most other roulette felts. The big rule change in European Roulette is that the player only loses half their bet on even money wagers like red, black, odd, even, high, and low when the ball lands on zero. This is called la partage.

The other type of single zero roulette in Las Vegas is the traditional one. Every bet on the felt has the same payout as it would on a double or triple zero wheel.

The house edge in single zero roulette is 2.7%.

It drops to 1.35% in European Roulette for bets that qualify under the la partage rule.
