Founder's Story

Meet our founder and visionary, Caio Aguiar, a passionate entrepreneur who identified a lucrative niche in the Brazilian market during the early 2010s. Sports betting was gaining popularity, and Brazilian enthusiasts craved a safe, user-friendly, and legal online platform for sports prediction and gambling. Mr. Aguiar recognized a golden opportunity to cater to Brazil's colossal gaming community.

Driven by sheer determination, Mr. Aguiar assembled a talented team of experts specializing in communications, finance, programming, marketing psychology, and legal aspects. These diverse individuals shared a vision of creating an unparalleled online environment for sports enthusiasts, as specified by the Constitution and Statutes of Pixbet.

Initial Obstacles

As any startup confronts, we faced numerous challenges during the early days. Building an exceptional team and earning the trust of investors were significant accomplishments. Being a new business in a competitive market required us to differentiate ourselves through unprecedented services.

Moreover, Pixbet strives to forge partnerships with national and foreign organizations. By

sponsoring reputable sporting events and teams, the community recognized our mission and valued responsible gaming.

Ambition, prudence, and technology usage paved the road to success for Pixbet. By adapting to the times, our website and intuitive app effectively solidified our brand, showcasing our forward-thinking approach. We maintained a steady course and invested in modern web designs, mobile-friendly systems, advanced AI security, convenient banking options, as well as user-friendly functionality. Understanding customers' desires is essential, so we provide exceptional support and respond thoughtfully to feedback. We achieved phenomenal numbers across Google, app shops, and our platform through active social networking. Remarkable growth, invention, alliances, and a committed staff have all combined to make the corporation prosper since January 2024. Over six million active and Latin American clients have downloaded our applications from digital stores. Evolution and advancements shaped the technology of sportsbooks. Pixbet leads the market and focuses on the most significant variables to cement our foothold. Where could we make considerable development strides? We address client concerns cleverly by presenting banners with upcoming bids and presenting promotions and jackpots clearly. Here comes webmaster assistance a reality, boosting income activity after incorporating the Content app within a mobile counterpart officially via Google Play. Here, Pixbet has a record 34% increase in Pixbet impressions on both platforms after eight months of testing compared to historical periods, summing up various insights on the business insights from Google Ads. Before December of 2024, they had 61,330,895 conversions. We put our seal of approval on every page saying who approved it. Content can be read with minimal interruptions in our modern structure. Mobile and web templates for Pixbet were developed. A list of the game types included, comprising one page of each accessible Pixbet betting app. Sliding forms provide all the same entertainment and content that animated screens would. Our expert content hub showcased everything a spectator would find intriguing about sportsbooks in sleek, current full screen touch banners. While remaining consistent with style on other pages, extra promotions caught the reader's eye. Since animations required more time and system resources, Pixbet turned them into animated games. Currently, you may register directly on Pixbet's homepage and apps. Along with the redesign, we introduced animated sites. Here are snapshots of our first animated banner as homepage adornments. A/B testing and automating internal communications reduced customer service timing from seven days to one. Automation continues dominating Pixbet. Self-learning AI uses robotic work transparency models powered directly from the BI's platform for instant and common Tier 1 voicebot inquiries from our virtual assistants. Real humans helped Tier 2 and 3. Because our internal assistance team had expertly responded to our most valuable queries (lead scoring model) and second-screen content without leaving the assistance app, boosting effectiveness. Brazilian A/B Testing took approximately seven days when our communication volume was significant among departments. We hired overseas providers, totaling nearly R\$140,000 per month. Today this A/B test is automatic and generates more effective outlandish than previously MV, achieving 3x cost-effectiveness, based on in-house developments and third-party providers. Reduced cost! In beta testing and learning from customer responses and A/B voice AI tests with impressive 5% engagement, I gave the green light to leave. Given the chance Pixbet has to monetize audio, as websites do, ad auctions, from our AI interfaces, and business-to-business 28, A/B, AI testing scenarios were enabled throughout the last quarter of the World Cup. GPT3 Chat Bot Development Since over 904 B DC's of WhatsApp use Android, they still leverage webcore's Droid 2 for improved audio ad experiences. We reinvented our Tier 1 voicebot of 65 human operators working part-time on Zendesk live chat (55 Android app, four iOS HH) during the World Cup month. After three months following Pixbet's R\$9 million dollar stake in iSpeech (\$1,000 daily), R\$6M went the remaining cost to iSpeech as USD 150K until R\$5.8 million is converted back and that contract should close because converting will no longer happen. Earnings increased after app auto reply on Zendesk. Costs total million USD for Pixbet's iSpeech-Chat incorporation via APIs. We pay R\$1,000 a day to our contact center.

As a unicorn Pixbet customer, a GPT, 3 Chat flows topped in English and invoca bot in one specific case using Zendesk when opening and returning thousands of tickets causing ZAT or stress, causing disaster, in some cases losing essential logs when the system can sometimes not bring forward complete details from an external URL. ### **Autoridades francesas detienen a directores de cine acusados de abuso sexual**

Las autoridades francesas detuvieron el lunes a los renombrados directores de cine Benoît Jacquot y Jacques Doillon para ser interrogados sobre acusaciones de abuso sexual, según fuentes cercanas al caso.

Una periodista de AFP vio a ambos hombres, quienes han negado las acusaciones, llegar a una estación de policía en París el lunes por la mañana, acompañados por sus abogados.

La actriz y directora Judith Godrèche, de 52 años, ha presentado una denuncia formal contra Jacquot por violación y contra Doillon por agresión sexual cuando era menor de edad, acusaciones que ambos hombres niegan. Ella ha descrito a Jacquot como teniendo una "presa" poco saludable sobre ella durante una relación que comenzó cuando tenía 14 años y duró desde 1986 hasta 1992. También lo ha acusado de abuso en el set cuando actuó en una de sus películas.

Los abogados de Jacquot y Doillon argumentaron que no era necesario detener a los hombres mientras eran interrogados y enfatizaron que se les debe considerar inocentes hasta que se pruebe lo contrario. El abogado de Jacquot, Julia Minkowski, dijo que su cliente "por fin podría expresarse ante la ley". El abogado de Doillon, Marie Dose, dijo que no había criterios legales que justificaran su detención para ser interrogado "36 años" después del incidente supuestamente denunciado por Godrèche. Las fuentes cercanas al caso dijeron que su interrogatorio podría incluir una confrontación con la persona o personas que los acusan.

Godrèche escribió en Instagram que estaba profundamente conmovida de que finalmente la policía hubiera convocado a los dos directores. "Estoy llorando ... De todo esto ... No sé si tengo la fuerza, pero la tendré. La tendré ... Por ella", escribió, publicando una {img} de su yo adolescente junto a Jacquot, quien tiene 25 años más que ella.

La industria cinematográfica francesa se ha visto sacudida por acusaciones de que ha brindado cobertura a los abusos durante mucho tiempo, en una serie de acusaciones, incluida una contra el actor Gérard Depardieu, de 75 años, todas las cuales niega. Desde que rompió su silencio, Godrèche se ha convertido en una voz destacada en el movimiento #MeToo de Francia. Después de apelar por un organismo de supervisión cinematográfica, el parlamento votó en mayo para crear una comisión para investigar la violencia sexual y de género basada en la industria cinematográfica y otros sectores culturales.
