One of the great things about betting on tennis is just how many options there are. However, for some people this can at first be slightly overwhelming. Luckily, it is actually very straightforward and if you spend just a few minutes familiarising yourself with the different betting markets, you will immediately start to benefit from the many different opportunities that present themselves. However, most of the interesting markets are found under Game Odds. This is where you can bet on individual matches within a tournament. The markets start very simple, you can just bet on the Winner Full Time, which is exactly what it sounds like. However, there are many more markets available and they offer far more interesting possibilities. The markets are actually divided into three sections, Match, Set and Match Specials. In addition to Winner Full Time, the match category offers bets such as Set Betting (Correct Score), which is a bet on how many sets each player will win, Games and Sets Handicap betting, which is on the players to win a certain numbers of games/sets with a betting handicap, Over/Under Games, which is a bet on how many games there will be in the match, and so on.

The Set category allows you to bet on the individual sets. For instance, you can bet on who will win individual sets (first, second, etc.), how many games there will be in a set, and the exact score of sets. The Match Specials section contains prop bets. For instance, you can bet on players to win at least one set or for sets to finish to nil.

Outright betting is perfect for those who are looking for very generous odds and have a feeling about the overall results of tournaments. There are not normally many tennis outright markets on offer, but they give you the chance to win large amounts for very small bets. Generally, outright markets will always pay better than even money. The markets are always worth exploring and you may spot some exciting betting opportunities.

In-Play betting gives you the chance to take your engagement with the sport to an entirely new level. You can place bets as the match is taking place and it presents a huge number of chances to place winning bets. We offer in-play betting on a huge number of tennis matches with the odds updated on a continual basis. In-play betting allows you to bet on every point of a tennis match. While watching, you can place a bet on who will win the point currently being played, meaning that you can immediately react to the action. You can also place bets on the exact score, on whether there will be a deuce, the total points, and far more. You will also find markets that are a bit more general, such as if the match will contain a tiebreak. Best of all, we also bring you live updates from the match so that you can see the current score at all times and get a sense for how things are progressing. This means that you will always have the opportunity to place well-informed bets.

Online, you'll find a football section with lists of matches and types of bets. You can click these to find the bet you want to place. By following the instructions and simply clicking in the right place, you'll find yourself taken to My Betting Slip where you can review your bets before parting with your money.

The most basic way to bet on football is a straight bet on the points spread. When making a straight bet, the team the player bets must cover the points spread. This means that the favored team must win by a stipulated number of points or the underdog will receive that number of points.
