100/1 Roulette Symbols

100/1 Roulette does not

feature symbols like slot games. Instead, gameplay is done by using numbers.

Specificially the numbers from one all the way up to 100. All of the numbers are assigned either red or black and are set on a grid where the numbers are laid out after each other vertically.

On the side of the grid there are also the different bet types

which you can bet on. Underneath the playing area you can see your chips and how much you have bet on which number. This helps make game play smoother as you are always aware and in control of your betting chips.

Features and How to Play 100/1 Roulette

Slot

Playing 100/1 Roulette is similar to playing traditional roulette. The types of bets possible are identical to classic roulette. In 100/1 Roulette you also have the opportunity of betting on single numbers, the option to bet on colours, the option to bet on odd or even, and the option to bet on a certain range of numbers. The only crucial difference found between Classic Roulette and 100/1 Roulette, is the greater payouts you receive in 100/1 Roulette when you decide to utilise a single number bet.
