Spread-Bet Roulette

Introduction

Spread-Bet is a set of side bets in

roulette by Cammegh, a maker of 5 gaming equipment, including roulette tables and signs.

The outcome is based on the sum of two electronic spins, as shown 5 to the player on the electronic game display.

Rules

Spread-Bet is a set of seven side bets that can be added

to 5 a standard roulette game. Following are the rules.

In addition to the standard

roulette spin, two random outcomes will be drawn 5 electronically and displayed to the

player virtually on the scoreboard in the form of two concentric roulette wheels. The

two 5 virtual spins will be on the same kind of roulette wheel as the physical spin. In

other words, the same 5 number of zeroes will be used. There are seven bets to choose

from, which will win according to the sum 5 of the two virtual spins. These betting

spaces will be placed in the area for outside bets. The win of 5 the Spread-Bets shall be

based on the sum of the two virtual spins. Both the zero and double-zero shall count 5 as

zero for purposes of this sum. The seven different Spread-Bets cover various ranges

from 0 to 72. Different versions 5 are available to the casino operator, which are shown

in the analysis section of this page.

Single-Zero Wheel Analysis

The following four

5 tables show the four sets of bets available to casino operators for single-zero wheels.

Each table shows the seven bets 5 available, what a win pays (on a "to one" basis), the number of winning combinations, probability of winning, and expected 5 return to the player.
