How to Play European Roulette

NetEnt Online

European Roulette is favoured around the world, and the reason why is ultimately because it is one of the most fun games out there to play and win from. This game is not one for those with a faint heart though. It is a game which is governed by lady luck and your chances.

There are multiple variations of Roulette, but what makes European Roulette truly stand out against the rest is how the rules differ in comparison. One of those rules for example, is one where the player can lose half of the bet if they are unlucky and that roulette ball hits nil outside. It is known as 'la partage'.

Then there is another rule known as 'en prison', and this occurs when a player hits zero. When that happens, their bet is held, but the player can get it back as long as they hit the same number with their next spin on the roulette table.

These

rules are a big reason as to why this version of Roulette is really based on chance more so than some other variations out there. What is more, another great advantage to playing European Roulette is that whether you play online or in house, you can expect the same fun experience either way.

And it really does not matter how you choose to

play European Roulette NetEnt. If you go to an online casino or to a real bricks and mortar one, the way to play stays the same. When you learn to play european roulette, a

dealer spins the wheel and this sets the ball off into the opposite direction.

The

elegant sphere of the European Roulette NetEnt wheel then becomes a blur of red, green and blue, and the real excitement sets in just before you find out if you have won or lost. The centre of the wheel is silver and the numbers alongside are white which helps you see clearly where your ball has landed.
